Critchfield, 2010-03-01

In these tumultuous times, who among us knows how to cope or where to turn? With all systems on overload, what can we do as individuals to stem the tide of financial crisis, geopolitical upheaval, and ecological disaster? As the potentially apocalyptic date of December 21, 2012 approaches, what can you do to prepare? Who can help? How can you help yourself and those you love? If you are searching for help, it is here for the taking. Please help yourself. And when you do that, you help us all. The content of this manuscript represents over 30 years of personal research, study, prayer, and life experience. Reed relates: When I started it, it was just about me putting my own house in order. Then it occurred to me that perhaps other people are struggling to find the Truth too. This book was written to help those people seeking to find their path in life leading to peace and happiness. It is for those who are looking for the Truths that help them give meaning to their existence and give them the deeper reasons for why they are on the earth at this particular point in time. If you have ever wondered who you really are, why you were born to this era, and how you can fulfill your individual purpose of your existence, this book can help. When enough of us figure this out, we become a catalyst to help the human race collectively fulfill its destiny. This book can open your mind and heart to new ways of looking at your mortality and for ultimately finding true happiness from within. It will assist you in awakening to your relationships with others, with the Earth, the Cosmos, and God. **Books in**

Print Supplement, 2002 **Religion in Sociological Perspective** Keith A. Roberts, David Yamane, 2011-06-09 *Religion in Sociological Perspective* is an introduction to the sociology of religion, core text designed to present and illustrate the basic theories sociologists use to understand the social dimensions of religion. First and foremost, the authors seek to help students understand the perspective from which sociologists view religion. By the time students have finished this book, they should understand the central theories and methods of research in the sociology of religion and they should have an idea of how to apply these analytical tools to new groups they encounter. The goal of this text is to be illustrative rather than all-encompassing. The Fifth Edition continues to draw on a wide range of perspectives. The text aims to help students recognize the contributions of various theoretical perspectives and the blind spots of each theory. Conflict, functional, social constructionist, and rational choice paradigms are used throughout the text. Various middle-range theories are also utilized to explore specific processes. Despite the effort to introduce many perspectives, however, we have made an effort to enhance integration of the text by using one framework throughout the book: the open systems model. **In Search of Inner Peace with A Course in Miracles** Jose Ignacio Infante Perez, *A Course in Miracles* is a spiritual work that has transformed the lives of millions of people around the world. Its teachings focus on the importance of finding inner peace and life purpose.
