The founder and president of the Mothers Union one of the first and largest women s organisations Mary Sumner 1828 1921 was an influential educator and a force to be reckoned with in the Church of England of the late nineteenth and early twentieth centuries Using the analytical tools of the sociologist Pierre Bourdieu Sue Anderson Faithful locates Mary Sumner s life and thought against social and religious networks in which she was restricted by gender yet privileged by class and proximity to distinguished individuals This dichotomy is key to understanding the achievements of a woman who both replicated and shaped Victorian attitudes to women s roles in society To Mary Sumner mission and education meant the propagation of religious knowledge through progressive pedagogy Her activism was intended to promote social reform at home and nurture the growth of the British Empire with mothers wielding their political power as educators of future citizens The symbiotic relationship between Church and State concentrated power in the hands of a ruling class with which Mary Sumner identified and which she supported In her view the legitimacy of national and imperial rule was intertwined with the moral force of Anglicanism SueAnderson Faithful interprets Mary Sumner s lifelong work in the light of these relationships contrasting her assertion of personal agency and an empowering discourse of motherhood with her simultaneous reinforcement of patriarchy and class privilege

Reflecting on Faith Schools Helen Johnson,2013-09-13 Profound changes in society government policy and the political landscape as well as cataclysmic events such as 9 11 have greatly altered perceptions of faith schools and their existence now causes more controversy than ever Taking a reflective practice approach this study by people working within faith schools and colleges explores the new hot issues surrounding the subject in a sophisticated way Looking at the supposed secularisation of the West the nature of the multi cultural and multi faith society the role of women the spiritual development of children and most of all the form that the tolerance of religious diversity should take in liberal societies this book encourages readers to re examine their assumptions and to consider faith schools as a part of the future of the English schooling system within a multi cultural society This book was previously

published as a special issue of The International Journal of Children's Spirituality Global Perspectives on Spirituality and Education Jacqueline Watson, Marian de Souza, Ann Trousdale, 2013-12-04 In recent decades and around the world much attention has been given to the role of spirituality in the education of children and young people While educationalists share many common goals and values in nurturing the spiritual lives of children and young people national and regional cultures religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research and the nature and impact of these differences is not yet understood This book brings together thinkers from around the globe and sets them the task of explaining how their research on children's spirituality and education has been shaped by the historical cultural religious and political contexts of the geographic region in which they work The book presents contributions in three sections Europe and Israel Australasia and The Americas and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education *International Handbook of the Religious, Moral and Spiritual Dimensions in Education* Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world **Understanding British Values in Primary Schools** Joy Carroll, Colin Howard, Bridget Knight, 2018-05-08 Schools must actively promote the fundamental British values of democracy the rule of law individual liberty mutual respect and tolerance of those with different faiths and beliefs The Teachers Standards make it clear that teachers themselves must do nothing to undermine these fundamental British Values So how do schools and teachers provide educational experiences for primary aged children that explore and promote these values This text provides trainees teachers and schools with practice based advice informed by current practitioners relating to the delivery of British Values The content covers many topical themes and provides a unique insight into delivering British Values in schools It supports educational professionals to understand their duties around the

PREVENT agenda and goes further to explore why this is important It helps trainees and teachers to see how these values fit within the wider context of education and what we value as educators

Challenging Perceptions in Primary Education Margaret Sangster, 2015-02-26 What are the beliefs that influence your professional practice Have you ever thought about why you make the decisions you make as a teacher What influences your teaching style Beyond the technical skills and knowledge aspects of education teachers and student teachers face questions which challenge their beliefs and approaches to their teaching and learning This book contains a series of short articles which not only offer guidance on key topics but encourage the reader to engage in reflecting on their own practice Questions explored include Is learning through practical work worth the effort What can we learn from comparisons with education in other countries Is there a smarter way to use digital imagery in your teaching What s the point of theory Isn t teaching just a craft

Religion and Spirituality in the Life Cycle James Gollnick, 2005 In recent years profound changes have affected the way people view the role of religion and spirituality in the life cycle For many people spirituality always considered an essential part of religion has become an interest no longer tied to organized religion This book addresses the evolving relationship of spirituality to religion in our time and the consequences of this change for understanding personality development It also applies the concept of implicit religion to show how the least easily observed aspects of religion are at work in the growth of personality

Spirituality in the Biomedical World Guy Jobin, 2020-06-22 The need to take the spiritual experience during illness into account is part of a broader trend in Western societies a fascination with the practical uses of spirituality and its contribution to individual wellbeing whether through a religious or a humanist tradition This understanding of spirituality differs from traditional views embedded in religious traditions This book takes a critical point of view at the biomedical representation of the function of spirituality in care Medicine reorders notions such as life death health sickness and spirituality This process is called here sapientialization i e the spiritual experience is expressed and understood under the auspices of and in terms of wisdom This view tends to identify spirituality and ethics I propose an alternate understanding of spirituality grounded on its subversive power Inspired by the work of the theologian John D Caputo it is critical of some problems that are associated with the sapientialization of spirituality in biomedicine such as the medicalization of spiritual experiences or the instrumentalization of spirituality It provides an understanding of spirituality that honours both the medical interest in it and its capacity to resist to instrumentalization

MasterClass in Religious Education Liam Francis Gearon, 2013-02-14 MasterClass in Religious Education provides a comprehensive exploration of the major themes in religious education research and pedagogy drawing on international research The author draws together historical theological religious and comparative and international perspectives to explore religious education s role in confronting controversial issues and the implications this has for teaching learning and research This book incorporates discussions of current post 9 11 debates on religion in the modern

world focusing particularly on the relationship of religion to secular political contexts Liam Gearon pays close attention to debates around religion in liberal democratic societies looking at topics such as citizenship human rights and identity
