**Healing** Jack Angelo, Jan Angelo, 2002 The authors present 30 exercises based on the human body's natural energy fields. The various techniques explained in this book are specifically intended to alleviate physical pain, heal many ailments, and bring comfort to the terminally ill. As preparation for the exercises, readers are instructed in both the history and theory of spiritual healing. They go on to learn methods intended to awaken their own healing powers, energize working and living spaces, locate the body's chakras, and even sense beneficial energy fields surrounding animals and plants. The authors' aims are to offer a celebration of all spiritual aspects of the human journey from birth to death. Their book presents an accessible approach to a popular method of personal development that focuses on both the body and the spirit: a holistic approach to healing. Approximately 180 color illustrations help readers visualize and activate the energy fields that surround us all. **Spiritual Healing**

Eileen Herzberg, 1989-02-01 *An Outline of Spiritual Healing*

Gordon Turner, 1972 Spiritual Healing

Jack Angelo, 2016-01-28 Spiritual healing is an ancient art which has been practised for thousands of years in many different cultures. Today, healers are working more closely with doctors as spiritual healing effectively complements orthodox medicine. But spiritual healing extends to other levels of our being to discover the causes of illness and heal body, mind, and spirit. This practical guide outlines what spiritual healing is, how healing relates to the human energy system, how spiritual healing can work for you, how and where to find a healer, how to use self-healing techniques. *The Four Levels of Healing*

Shakti Gawain, 1999 In this profoundly exciting and challenging time, individuals may find they are involved in a difficult yet fascinating learning process: both their personal evolution and the evolution of human consciousness. In this best-selling book, author Shakti Gawain describes the four levels of human existence: spiritual, mental, emotional, and physical, and explains the importance of developing all four. She also provides the meditations and exercises readers need to begin their own healing journeys. Spiritual Healing Techniques
