**Emotional Intelligence** Gilmore Crosby,2021-08-17 This book weaves together spirituality and a systemic version of emotional intelligence that incorporates Kurt Lewin's social science and other sources Emotional intelligence calls on us to be fully present to the moment It calls on us to be appreciative of ourselves and our relationships Likewise a calm and compassionate presence is almost universally recognized as a spiritual way of being In other words the overwhelming majority of the world's spiritual sources call on us to be emotionally intelligent and that link is explored with unique clarity in

this simple yet powerful text We are all reactive at times Becoming more objective and less attached allows us to feel our feelings without being a prisoner to acting on them in habitual ways From a more detached perspective feelings are neither good nor bad but simply clues as to how we are perceiving our environment especially our social environment This is especially important in terms of our relationships at work Our perceptions about what people intend trigger our emotional reactions Think about the difference when you perceive critical feedback as a sincere attempt to help or when you perceive it as an attack of some sort Perception evokes different emotional responses Objectivity about our own perception is even more important than objectivity about emotion because the former usually precedes the later Paradoxically being detached allows one to appreciate and experience one's emotions more fully Recognizing emotion as part of your inner guidance system instead of as something dangerous that must be controlled or denied is freeing The less emotion runs you the more you can accept feeling what you feel Emotion is a form of physical energy Fighting your own feelings takes energy Allowing the ebb and flow of emotion is essential to physical and emotional health and to accepting ourselves as we are

*A Cultural History of the Emotions in the Medieval Age* Juanita Ruys, Clare Monagle, 2020-08-20 Our period opens at the end of the Roman Empire when intellectual currents are indebted to the Greek philosophical inheritance of Plato and Aristotle as well as to a Romanized Stoicism Into this mix entered the new and from 313CE imperially sanctioned religion of Christianity In art literature music and drama we find an increasing emphasis on the arousal of individual emotions and their acceptance as a means towards devotion In religion we see a move from the ascetic regulation of emotions to the affective piety of the later medieval period that valued the believer's identification with the Passion of Christ and the sorrow of Mary In science and medicine the nature and causes of emotions their role in constituting the human person and their impact on the same became a subject of academic inquiry Emotions also played an increasingly important public role evidenced in populace wide events such as conversion and the strategies of rulership Between 350 and 1300 emotions were transformed from something to be transcended into a location for meditation upon what it means to be human

Spirituality in the Flesh Robert C. Fuller, 2008-09-08 Comfortable with the language of scientific analysis and sympathetic to the inherently subjective aspects of religious events Fuller introduces the biological study of religion by joining together this era's unprecedented understanding of bodily states with an expert's knowledge of religious phenomena Culling together insights from scientific observations historical allusions and literary references *Spirituality in the Flesh* offers a bold look at the biological underpinnings of religion and opens up new and exciting agendas for understanding the nature and value of human religiosity

*Renewing Spiritual Perception with Jonathan Edwards* Ray S. Yeo, 2016-06-17 Jonathan Edwards' theologically sophisticated psychology of grace remains one of the deepest and most fertile theological psychologies in the Protestant tradition The heart of his account lies in his foundational doctrine of spiritual perception where he locates the psychological core of the engrafted Christian life This work revisits Edwards' doctrine from the perspective of recent work in the philosophy

of emotions and other related philosophical sub disciplines The aim is to recover this often neglected theme in contemporary theology and renew it by bringing Edwards theological insights into conversation with various spheres of contemporary philosophical discussion The account of spiritual perception that emerges from this interdisciplinary dialogue is one that seeks to revise update and deepen Edwards own thinking on the matter in five major ways The book concludes by arguing that the capacity for spiritual and emotional perception of the supreme good is grounded upon a wisdom like seminal virtue centred upon the incarnate Christ i e Christocentric wisdom Such wisdom on the renewed account is considered the psychological core of transforming grace and the foundational basis upon which all other Christian virtues are formed
