Agents of Empire Noel Malcolm, 2015-08-06 In the late sixteenth century a prominent Albanian named Antonio Bruni composed a revealing document about his home country Historian Sir Noel Malcolm takes this document as a point of departure to explore the lives of the entire Bruni family whose members included an archbishop of the Balkans the captain of the papal flagship at the Battle of Lepanto at which the Ottomans were turned back in the Eastern Mediterranean in 1571 and a highly placed interpreter in Istanbul formerly Constantinople the capital of the Eastern Roman Empire that fell to the Turks in 1453 The taking of Constantinople had profoundly altered the map of the Mediterranean By the time of Bruni's document Albania largely a Venetian province from 1405 onward had been absorbed into the Ottoman Empire Even under the Ottomans however this was a world marked by the ferment of the Italian Renaissance In Agents of Empire Malcolm uses the collective biography of the Brunis to paint a fascinating and intimate picture of Albania at a moment when it represented the frontier between empires cultures and religions The lives of the polylingual cosmopolitan Brunis shed new light on the interrelations between the Ottoman and Christian worlds characterized by both conflict and complex interdependence The result of years of archival detective work Agents of Empire brings to life a vibrant moment in European and Ottoman history challenging our assumptions about their supposed differences Malcolm's book guides us through the exchanges between East and West Venetians and the Ottomans and tells a story of worlds colliding with and transforming one another

KOSOVO KNOT Petar V. Grujić, 2014-09-18 Kosovo has been a troublesome region of West Balkan for the last half millennium The latest events which have resulted in NATO occupation of the southern province of Serbia marked the culmination of the violence that includes both domestic and international agencies Many authors have dealt with the Kosovo affair but none of them endeavored to present a complete picture of the case This book attempts to provide a broad and objective analysis of the problem from the historical anthropological political and sociological points of view The emphasis is on the sociological side of the conflicts Only by understanding the differences of the mental structures and civilizations of the populations involved can one hope to achieve a just and sustainable solution It is shown that the

Kosovo affair is a part of the perennial issue of montagnards versus plane people This forms the background of the conflicts West Balkan has witnessed in the last decades The Kosovo case cannot be considered isolated from the global political situation and this book provides bold even provocative examinations of the principal players from outside It provides also a detailed account of the political situation in Serbia for the last half century with a detailed account of the struggle to overthrow Milosevic s regime

The Westminster Review ,1854 **The Foreign Quarterly Review** ,1854 **The Crescent and the Eagle** George W. Gawrych,2006-10-25 The Crescent and the Eagle examines the awakening of Albanian national identity from the end of the 19th century to the outbreak of the First World War a period of intense nationalism in the Balkans from an Ottoman perspective Drawing on Ottoman and European archival material the book undermines the customary negative stereotypes of Ottoman rule offering a more nuanced interpretation Gawrych provides a critical but objective examination of the evolution of government policies toward Albanians from attempts to mould them into an iron barrier to the establishment of a uniform system of administration He argues that this was a result of a complicated set of conflicting allegiances and identities rather than a simply adversarial struggle between government imposition of policy and Albanian resistance The author also analyses the general problems of endemic violence and misadministration at the provincial level and examines Albanian efforts to gain nationality rights and maintain local privileges and tribal autonomy Weaving his analysis of these events into a chronological framework he concludes that Albanian independence resulted from a confluence of foreign and domestic developments rather than from the design and will of the Albanians themselves This stimulating study offers many fresh insights into the dynamics of power within the Ottoman Empire and contributes a new perspective to the study of the development of Albanian nationalism
