Genoways,Robert J. Baker,1979 **The New Encyclopedia of Southern Culture** Martin V. Yarborough, the People's Senator* Patrick L. Cox,2010-06-28 A compelling biography of a Texas senator who was a defiant dedicated liberal in the face of conservative Southern politics Publishers Weekly Revered by many Texans and other Americans as the People s Senator Ralph Webster Yarborough fought for the little people in a political career that places him in the ranks of the most influential leaders in Texas history The only U S senator representing a former Confederate state to vote for every significant piece of modern civil rights legislation

Yarborough became a cornerstone of Lyndon Johnson's Great Society programs in the areas of education, environmental preservation, and health care. In doing so, he played a major role in the social and economic modernization of Texas and the American South. He often defied conventional political wisdom with his stands against powerful interests and with his vocal opposition to the Vietnam War. Yet to this day, his admirers speak of Yarborough as an inspiration for public service and a model of political independence and integrity. This biography offers the first in-depth look at the life and career of Ralph Yarborough. Patrick L. Cox draws on Yarborough's personal and professional papers as well as on extensive interviews with the senator and his associates to follow Yarborough from his formative years in East Texas through his legal and judicial career in the 1930s, decorated military service in World War II, unsuccessful campaigns for Texas governor in the 1950s, distinguished tenure in the United States Senate from 1957 to 1970, and return to legal practice through the 1980s. Although Yarborough's liberal politics set him at odds with most of the Texas power brokers of his time, including Lyndon Johnson, his accomplishments have become part of the national fabric: Medicare recipients, beneficiaries of the Cold War GI Bill, and even beachcombers on Padre Island National Seashore all share in the lasting legacy of Senator Ralph Yarborough.

Walks of a Lifetime in America's National Parks Robert Manning, Martha Manning, 2020-07-30. Walks of a Lifetime in America's National Parks: Extraordinary Hikes in Exceptional Places. In this book, the Mannings introduce and describe all the national parks and offer first-hand descriptions of the very best trails that lead walkers to quintessential scenic vistas, celebrated rivers and lakes, majestic waterfalls, outstanding wildlife viewing areas, significant historic and prehistoric sites, and much more. These walks range from short nature trails to half and full day hikes to backpacking trips. Connecting Mountain Islands and Desert Seas, 2005. *Exploring the Edges of Texas* Walt Davis, Isabel Davis, 2010-01-18. In 1955, Frank X. Tolbert, a well-known columnist for the Dallas Morning News, circumnavigated Texas with his nine-year-old son in a Willis Jeep. The column he phoned in to the newspaper about his adventures in Texas was a staple of Walt Davis's childhood. Fifty years later, Walt and his wife Isabel have re-explored portions of Tolbert's trek along the boundaries of Texas. The border of Texas is longer than the Amazon River, running through ten distinct ecological zones as it outlines one of the most familiar shapes in geography. According to the Davises, driving its every twist and turn would be like driving from Miami to Los Angeles by way of New York. Each of this book's sixteen chapters opens with an original drawing by Walt representing a segment of the Texas border where the authors selected a special place: a national park, a stretch of river, a mountain range, or an archeological site. Using a firsthand account of that place written by a previous visitor—artist, explorer, naturalist, or

archeologist they then identified a contemporary voice whether biologist rancher river runner or paleontologist to serve as a modern day guide for their journey of rediscovery This dual perspective allows the authors to attach personal stories to the places they visited to connect the past with the present and to compare Texas then with Texas now Whether retracing botanist Charles Wright s 600 mile walk to El Paso in 1849 or paddling Houston s Buffalo Bayou where John James Audubon saw ivory billed woodpeckers in 1837 the Davises seek to remind readers that passionate and determined people wrote the state s natural history Anyone interested in Texas or its rich natural heritage will find deep enjoyment in Exploring the Edges of Texas Publication of this book is generously supported by a memorial gift in honor of Mary Frances Chan Driscoll a founding member of the Advisory Council of Texas A M University Press by her sons Henry B Paup 70 and T Edgar Paup 74
