

Unreached People

(not land masses)

If the Great Commission is about people, why do we represent it with geographic maps?

Geographic maps show the percentage of the total world population who live in areas where there is a priority evangelism need. These are areas where the population has large numbers of people who have not yet heard the gospel message. These are areas where the world map is a surrogate based on 2000 population estimates - every point represents 100,000 people clustered geographically.
