edge scholarship in literature and literary studies **The Modern Weird Tale** S.T. Joshi,2015-11-16 This is a critical study of many of the leading writers of horror and supernatural fiction since World War II The primary purpose is to establish a canon of weird literature and to distinguish the genuinely meritorious writers of the past fifty years from those who have obtained merely transient popular renown Accordingly the author regards the complex subtle work of Shirley Jackson Ramsey Campbell Robert Aickman T E D Klein and Thomas Ligotti as considerably superior to the best sellers of Stephen King Clive Barker Peter Straub and Anne Rice Other writers such as William Peter Blatty Thomas Tryon Robert Bloch and Thomas Harris are also discussed Taken as a whole the volume represents a pioneering attempt to chart the development of weird fiction over the past half century **The Screaming Lake** S. Fowler Wright,2009-02-01 Devereux and Juanita travel deep into the Amazon jungle looking for Incan gold What they find is an ancient city forgotten by time located on the shores of The Screaming Lake where huge toad like monsters feast on unwary travelers Can they survive their encounter with the Living God *Sound* John Tyndall,1915 **A Scream in the Vacuum, Volume 1** Mathan Subbiah,2024-09-30 From the heart and mind of debut author Mathan Subbiah comes A Scream in the Vacuum a collection of reflections and poetry that offers an unfiltered look into the complexities of mental illness and the intricacies of human existence Living with bipolar disorder and schizophrenia for over three decades Subbiah transforms his experiences into powerful words that resonate with resilience creativity and deep philosophical insights This collection delves into the challenges of love and relationships the pressures of a capitalistic society and the impacts of religious and political systems Through deep pondering and thoughtful philosophizing Subbiah s writing shines a light on the shared human struggle offering insights that are both deeply personal and universally relatable A Scream in the Vacuum is more than just a book it is an invitation to explore the depths of our emotions to question the world around us and to find strength in vulnerability With each page Subbiah inspires readers to embrace their own journeys with empathy courage and a deeper understanding of life s profound questions Immerse yourself in this compelling collection and discover a voice that speaks to the indomitable human spirit and the quest for meaning [Epidemics and Othering](#) Heike Steinhoff,2023-11-02 The COVID 19 pandemic has affected the lives of many people around the globe and has brought to the fore discussions about the ways in which relations of power have shaped human biology and the health of populations Focusing on these biopolitics this collection brings together a number of historical and cultural perspectives on processes of othering in the long transnational human history of epidemics and pandemics Contributors explore the intertwinement of biopolitics and othering with regard to specific bodies people and places in relation to COVID 19 and beyond as they discuss othering dynamics in the context of post colonialism and with reference to a number of different cultural political medical and media discourses **New York Medical Journal** ,1916 *When Shadows Grow Tall* Maressa Voss,2024-07-26 When truth becomes a weapon who shall wield it The Grasp teeters on the edge of enlightenment in a tale of magic unbound and the resurgence of freedoms forsaken **Case on Appeal** ,

A Theory of Human Values Michael H. Mitias, 2025-07-05 In this book the author argues that human values do not fall from a metaphysical or physical sky nor do they fall from the mind of an ivory tower philosopher Firstly they originate from the human essence which emerges as a unique phenomenon from the natural process and inheres as a potentiality in the formal organization of the human body moreover the human essence emerges as a life force and seeks to exist and fulfill its destiny according to its nature Secondly the human essence does not emerge as a gift of nature to any particular society but to all the societies that comprise the human world Finally human values arise as an existential response to peremptory desires that express essential demands of the human essence as a primary impulse to human life *Atlas Shrugged* Ayn Rand, 2005-04-21 Peopled by larger than life heroes and villains charged with towering questions of good and evil *Atlas Shrugged* is Ayn Rand's magnum opus a philosophical revolution told in the form of an action thriller nominated as one of America's best loved novels by PBS's *The Great American Read* Who is John Galt When he says that he will stop the motor of the world is he a destroyer or a liberator Why does he have to fight his battles not against his enemies but against those who need him most Why does he fight his hardest battle against the woman he loves You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book You will discover why a productive genius becomes a worthless playboy why a great steel industrialist is working for his own destruction why a composer gives up his career on the night of his triumph why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill *Atlas Shrugged* a modern classic and Rand's most extensive statement of Objectivism her groundbreaking philosophy offers the reader the spectacle of human greatness depicted with all the poetry and power of one of the twentieth century's leading artists **Evil Dominion: Rise of the Red Hand** Seta Masters, Mine all mine The world is a frightening chaotic and unforgiving place Cruel men sit in their chairs high upon the hill and decide the world for us we who dare to be happy and live our lives in pursuit of our own goals But what if your goal was to be that cruel man Be the deadly threat be the force of evil be the Villain that fights the Heroes as you conquer this pitiful world and make all cower beneath your boot Could you take steps towards that goal Really Enter Zed A mysterious boy gifted with powers beyond the realm of meagre mortals who's goal is exactly that However all plans have to start somewhere and conquering the world isn't the easiest thing there could be You have to have a base for a start you have to have decent underlings you have to steal I mean raise enough money to fund your operations it's all a lot of work Not to mention the other Villains that want the world for themselves each slithering out from their dens and enacting their own devious plans until we defeat them claim their Dominions and bring all realms under our control So take your hand grasp the world and laugh maniacally because it's time to start the conquest It's time for the Red Hand to rise **The Audio Theater Guide** Robert L. Mott, 2014-11-26 This is a comprehensive guide to audio performance radio voice overs commercials live theater cartoons and more Topics include microphone acting vocal effects writing scripts manipulating emotions through

sound valuable tips for the director a long list of sound effects and how to do them and a series of commercials scenes and sketches for practicing one's skills

Sound John Tyndall, 2019-12-09 In his seminal work *Sound* John Tyndall explores the intricate nature of sound waves establishing a foundational understanding of acoustic phenomena that bridges both science and philosophy Tyndall employs a meticulous analytical style interweaving empirical observation with theoretical insights effectively positioning this text within the scientific discourse of the 19th century He delves into the physics of sound the nature of auditory perception and the innovative experiments that elucidate how sound propagates through various mediums making complex concepts accessible to both scholars and lay readers alike John Tyndall a prominent physicist and a key figure in the fields of thermodynamics and optics was instrumental in shaping contemporary understanding of physical science His background in experimental physics and his role as a public intellectual reflect his commitment to disseminating scientific knowledge to a broader audience Tyndall's passion for science was matched by his eloquence allowing him to articulate complex theories in a manner that engaged and inspired curiosity a quality that resonates throughout this work *Sound* is highly recommended for anyone intrigued by the scientific exploration of auditory phenomena as well as for those who appreciate the intersection of art and science Tyndall's prose not only elucidates the mechanics of sound but also invites readers to reflect on the deeper philosophical implications of what it means to hear This book is a must read for students of physics as well as for aficionados of the history of science
