The Nordic Languages. Volume 2 Oscar Bandle, Kurt Braunmüller, Ernst Hakon Jahr, Allan Karker, Hans-Peter Naumann, Ulf Telemann, Lennart Elmevik, Gun Widmark, 2008-07-14 No detailed description available for NORDIC LANGUAGES BUNDLE 2 VOL HSK 22 2 E BOOK **A History of Hegelianism in Golden Age Denmark, Tome II** Jon Stewart, 2024-04-08 This is the second volume in a three volume work dedicated to exploring the influence of G W F Hegel s philosophical thinking in Golden Age Denmark The work demonstrates that the largely overlooked tradition of Danish Hegelianism played a profound and indeed constitutive role in many spheres of the Golden Age culture This second tome treats the most intensive period in the history of the Danish Hegel reception namely the years from 1837 to 1841 The main figure in this period is the theologian Hans Martensen who made Hegel s philosophy a sensation among the students at the University of Copenhagen in the late 1830s This period also includes the publication of Johan Ludvig Heiberg s Hegelian journal Perseus and Frederik Christian Sibbern s monumental review of it which represented the most extensive treatment of Hegel s philosophy in the Danish language at the time During this period Hegel s philosophy flourished in unlikely genres such as drama and lyric poetry During these years Hegelianism enjoyed an unprecedented success in Denmark until it gradually began to be perceived as a dangerous trend *Language Change* Ernst Håkon Jahr, 2011-06-24 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing *Bulletin of the University of Wisconsin* , 1908 **The King's Household in England Before the Norman Conquest** Laurence Marcellus Larson, 1904 **The Origin of the System of Land Grants for Education** Joseph Schafer, 1908 *Avaldsnes - A Sea-Kings' Manor in First-Millennium Western Scandinavia* Dagfinn Skre, 2017-12-04 The Royal manor Avaldsnes in southwest Norway holds a rich history testified by 13th century sagas and exceptional graves from the first millennium AD In 2011 12 the settlement was excavated In this first book from the project crucial results from an international team of 23 scholars are published The chapters cover a wide array of topics ranging from building remains and scientific analyses of finds to landownership and ritual manifestations **The study of languages** Einar Haugen, 2019-04-01 No detailed description available for The study of languages *The Journal*

of English and Germanic Philology, 1919 **Early Swedish Literature** Bernard Moses, 1881 *The Jewish-Christian Encounter in Medieval Preaching* Jonathan Adams, Jussi Hanska, 2014-10-03 This book explores the complexity of preaching as a phenomenon in the medieval Jewish Christian encounter This was not only an encounter as physical meeting or confrontation such as the forced attendance of Jews at Christian sermons that took place across Europe but also an imaginary or theological encounter in which Jews remained a figure from a distant constructed time and place who served only to underline and verify Christian teachings Contributors also explore the Jewish response to Christian anti Jewish preaching in their own preaching and religious instruction **Linnaeus** Lisbet Koerner, 2001-04-16 Drawing on letters poems notebooks and secret diaries Lisbet Koerner tells the moving story of one of the most famous naturalists who ever lived the Swedish born botanist and systematizer Carl Linnaeus The first scholarly biography of this great Enlightenment scientist in almost one hundred years Linnaeus also recounts for the first time Linnaeus grand and bizarre economic projects to teach tea saffron and rice to grow on the Arctic tundra and to domesticate buffaloes guinea pigs and elks as Swedish farm animals Linnaeus hoped to reproduce the economy of empire and colony within the borders of his family home by growing cash crops in Northern Europe Koerner shows us the often surprising ways he embarked on this project Her narrative goes against the grain of Linnaean scholarship old and new by analyzing not how modern Linnaeus was but how he understood science in his time At the same time his attempts to organize a state economy according to principles of science prefigured an idea that has become one of the defining features of modernity Meticulously researched and based on archival data Linnaeus will be of compelling interest to historians of the Enlightenment historians of economics and historians of science But this engaging often funny and sometimes tragic portrait of a great man will be valued by general readers as well

Cabins in Modern Norwegian Literature Ellen Rees, 2014-03-06 This book examines the significance of cabins and other temporary seasonal dwellings as important symbols in modern Norwegian cultural and literary history The author uses Michel Foucault's notion of the heterotopia an actual place that also functions imaginatively as a kind of real world utopia to examine how cabins have signified differently during successive periods from an Enlightenment trope of simplicity and moderation through the rise of tourism into a period of increasing individualism and alienation from nature For each period discussed the author relates a widely recognized real world cabin to a cluster of thematically related literary texts from a wide variety of genres Cabins in Modern Norwegian Literature considers both central canonical works such as Camilla Collett's *The District Governor's Daughters* Bjørnstjerne Bjørnson's *Synnøve Solbakken* Henrik Ibsen's *When We Dead Awaken* and Knut Hamsun's *The Growth of the Soil* as well as less widely known literary works and texts from marginal genres such as hunting narratives and crime fiction In addition the book contains analyses of a few key films from the contemporary period that also activate the cabin as a motif The central argument is that while Norwegians today tend to think of cabin culture as essentially unchanging over a long span of time it has in fact changed dramatically over the past two hundred

years and that it is an extremely rich and complex cultural phenomenon deeply imbedded in the construction of national identity

Saami Linguistics Ida Toivonen, Diane Nelson, 2007-10-04 The papers in this volume describe and analyze an array of intriguing linguistic phenomena as they occur in the Saami languages ranging from etymological nativization of loanwords to the formation of deadjectival and denominal verbs Saami displays a number of characteristics that are unusual from a cross linguistic perspective including partial agreement on verbs a three way quantity distinction in consonants and spectacular consonant gradation The eight papers presented here approach these and other issues from diverse theoretical perspectives in morphology phonology and syntax The volume includes an extensive research bibliography which will be helpful for anyone interested in Saami linguistics
