**Slave Trades, 1500-1800** Patrick Manning, 2016-12-05 The trade in slaves is perhaps the most notorious feature of the era of European expansion Though begun in ancient times and continued well after 1800 in the early modern period there developed a particular nexus in which it boomed This volume distinguishes between procurement and trade and the exploitation of settled slaves the subject of a separate volume in the series edited by Judy Bieber and underscores the importance of the slave trade as a factor in world history A rank redistribution of wealth and power it permitted the exploitation and reconstruction of much of the globe The articles address issues of the volume and flow of trade the various populations enslaved factors of sex age and ethnicity and its impact on economic change as in the monetization of Africa or economic growth in England    *G.K. Hall Interdisciplinary Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 1999    1996 Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors

Newman, 2013-06-14 The small and remote island of Barbados seems an unlikely location for the epochal change in labor that overwhelmed it and much of British America in the seventeenth and eighteenth centuries However by 1650 it had become the greatest wealth producing area in the English speaking world the center of an exchange of people and goods between the British Isles the Gold Coast of West Africa and the New World By the early seventeenth century more than half a million enslaved men women and children had been transported to the island In A New World of Labor Simon P Newman argues that this exchange stimulated an entirely new system of bound labor Free and bound labor were defined and experienced by Britons and Africans across the British Atlantic world in quite different ways Connecting social developments in seventeenth century Britain with the British experience of slavery on the West African coast Newman demonstrates that the brutal white servant regime rather than the West African institution of slavery provided the most significant foundation for the violent system of racialized black slavery that developed in Barbados Class as much as race informed the creation of plantation slavery in Barbados and throughout British America Enslaved Africans in Barbados were

deployed in radically new ways in order to cultivate process and manufacture sugar on single integrated plantations This Barbadian system informed the development of racial slavery on Jamaica and other Caribbean islands as well as in South Carolina and then the Deep South of mainland British North America Drawing on British and West African precedents and then radically reshaping them Barbados planters invented a new world of labor    [A World Transformed](#) James Walvin,2022-05-17 A comprehensive study of how slavery and enslaved people shaped the modern world A World Transformed explores how slavery thrived at the heart of the entire Western world for more than three centuries Arguing that slavery can be fully understood only by stepping back from traditional national histories this book collects the scattered accounts of the latest modern scholarship into a comprehensive history of slavery and its shaping of the world we know Celebrated historian James Walvin tells a global story that covers everything from the capitalist economy labor and the environment to social culture and ideas of family beauty and taste This book underscores just how thoroughly slavery is responsible for the making of the modern world The enforced transportation and labor of millions of Africans became a massive social and economic force catalyzing the rapid development of multiple new and enormous trading systems with profound global consequences The labor and products of enslaved people changed the consumption habits of millions in India and Asia Europe and Africa in colonized and Indigenous American societies Across time slavery shaped many of the dominant features of Western taste items and habits or rare and costly luxuries some of which might seem at first glance utterly removed from the horrific reality of slavery A World Transformed traces the global impacts of slavery over centuries far beyond legal or historical endpoints confirming that the world created by slave labor lives on today    **The Making of New**

*European Slave Trading in the Indian Ocean, 1500–1850* Richard B. Allen, 2015-01-01 Between 1500 and 1850 European traders shipped hundreds of thousands of African Indian Malagasy and Southeast Asian slaves to ports throughout the Indian Ocean world The activities of the British Dutch French and Portuguese traders who operated in the Indian Ocean demonstrate that European slave trading was not confined largely to the Atlantic but must now be viewed as a truly global phenomenon European slave trading and abolitionism in the Indian Ocean also led to the development of an increasingly integrated movement of slave convict and indentured labor during the late eighteenth and early nineteenth centuries the consequences of which resonated well into the twentieth century Richard B Allen's magisterial work dramatically expands

our understanding of the movement of free and forced labor around the world Drawing upon extensive archival research and a thorough command of published scholarship Allen challenges the modern tendency to view the Indian and Atlantic oceans as self contained units of historical analysis and the attendant failure to understand the ways in which the Indian Ocean and Atlantic worlds have interacted with one another In so doing he offers tantalizing new insights into the origins and dynamics of global labor migration in the modern world
