brings devastating news for Edward and for Planet Earth As more unexplained phenomena spring up around the globe a granite mountain appearing in Australia sounds emanating from the earth s core flashes of light among the asteroids it becomes clear to some that the end is approaching and there is nothing we can do In *The Forge of God* award winning author Greg Bear describes the final days of the world on both a massive scientific scale and in the everyday emotional context of individual human lives Facing the destruction of all they know some people turn to God others to their families and a few turn to saviors promising escape from a planet being torn apart Will they make it in time And who gets left behind to experience the last moments of beauty and chaos on earth Nominated for the Nebula Hugo and Locus Awards *The Forge of God* is an engrossing read breathtaking in its scope and in its detail *Quantico* Greg Bear,2014-04-01 The Dome of the Rock in Jerusalem has been blown to bits by extremists and in retaliation thousands have died in another major attack on the United States Now the FBI has been dispatched to deal with a new menace A plague targeted to ethnic groups Jews or Muslims or both has the potential to wipe out entire populations But the FBI itself is under political assault There s a good chance agents William Griffin Fouad Al Husam and Jane Rowland will be part of the last class at Quantico As the young agents hunt a brilliant homegrown terrorist they join forces with veteran bio terror expert Rebecca Rose But the plot they uncover and the man they chase prove to be far more complex than anyone expects **Psychlone** Greg Bear,2014-04-01 An evil spawned from the horrors of World War II wreaks havoc on a small New Mexico town in this novel from the master of the grand scale SF novel Booklist Curiosity may kill Larry Fowler A scientist from New Mexico Fowler is hot on the trail of a mysterious phenomenon that is known to freeze animals instantly and can demolish an entire town Part ghost story part science fiction part political treatise Greg Bear s novel tracks Fowler on his journey to discover the true nature of the PSYCHLONE **Queen of Angels** Greg Bear,2014-04-01 Hugo Award Finalist A near future novel of artificial intelligence human nature and mass murder that succeeds on virtually every level The New York Times Book Review In Los Angeles in 2047 advances in the science of psychology have made crime a rare occurrence So it s utterly shocking when eight bodies are detected in an apartment and not long afterward the perpetrator is revealed as well noted poet Emmanuel Goldsmith The LAPD s Mary Choy who has had both her appearance and her police work enhanced by nanotechnology is tasked with arresting the killer while psychotherapy pioneer Martin Burke prepares to explore his mind Meanwhile Goldsmith s good friend and fellow writer reels at the news while far from all of them a space probe makes a startling discovery This excellent novel about technology identity and the nature of consciousness is a thought provoking stunner by the Nebula Award winning author of the Eon series and the Forerunner Saga Chicago Tribune **Hegira** Greg Bear,2014-04-01 A minor classic A small book but with big characters and great ideas from the Hugo and Nebula Award winning author of *Dinosaur Summer* SF Reviews The planet Hegira is the universe s melting pot Hundreds of tribes in dozens of cities intermingle in the vast uncharted territory The only thing holding the people together are the massive Obelisks the chronicles of all the truths and

falsehoods each tribe has brought to Hegira Young Bar Woten is in search of knowledge and he knows the key to the truth about his homeland is contained in the writings of the Obelisks With his fellow companions Bar Woten must travel through Hegira s exotic cities to discover the lies within the words of thousands **Women in Deep Time** Greg Bear,2014-04-01 Three stories with a common theme the female psyche multiplied and divided says Greg Bear in his introduction to *Women in Deep Time* There s probably something Jungian in common with all three At any rate throughout my writing career and for whatever reason I ve been fascinated by the feminine voice Featured in this special collection are Sisters Nebula Award finalist *Scattershot* in which the inhabitants of many universes meet in limbo and the Nebula Award winning *Hardfought* in which engineered warriors redefine humanity [100 Most Popular Science Fiction Authors](#) Maura Heaphy,2010 Contains biographical and bibliographical information on one hundred popular science fiction writers active from the classical era into the twenty first century each including a list of interviews and essays *Strength of Stones* Greg Bear,2014-04-01 Artificially intelligent cities rise up against humanity in this excellent novel It came on me as a surprise and it knocked me out Harlan Ellison In a theocratic world far into the future cities control their own movements and organization Constantly moving growing and decaying taking care of every need their inhabitants might think of the cities have decided that humans are no longer a necessary part of their architecture casting them out to wander in the wilderness and eke out a meager subsistence To the exiled humans the cities represent a paradisiacal Eden a reminder of all they cannot attain due to their sinful and unworthy natures But things are beginning to change People are no longer willing to allow the cities to keep them out choosing instead to force an entry and plunder at will The cities are starting to crumble and die because they have no purpose or reason to continue living without citizens One woman called mad by some and wise by others is the only human allowed to inhabit a city From her lonely and precarious position at the heart of one of the greatest cities ever she must decide the fate of the relationship between human society and the ancient strongholds of knowledge while making one last desperate attempt to save the living cities [Dead Lines](#) Greg Bear,2017-08-22 From a New York Times bestselling author A new kind of phone awakens the dead in this technological horror novel reminiscent of Koontz at his best Booklist Ever since his life was shattered by the kidnapping and murder of his young daughter Peter Russell has become a ghost of a man Once a successful director of adult films he has been reduced to running questionable errands for an eccentric California millionaire But everything changes when a Los Angeles start up offers him the opportunity to create promotional videos for their revolutionary new technology *Trans* The product offers exceptionally powerful crystal clear mobile communication that can operate anywhere and everywhere and Peter sets out to put it into every palm But as he uses the device himself he starts to see his murdered little girl Soon there are other voices disembodied confused angry emanating from a newly invaded dimension Many are even malevolent and hungry and deadly As the death toll of *Trans* users skyrockets Peter s life begins a new spiral downward Now he must race to make sense of the horror *Trans* has wrought before the gateway to Hell bursts
