Des siècles de beauté Sylvie Bailly, 2015-03-02 Les codes de la beauté au travers des siècles Mettre du rouge lèvres peut paraître être un acte anodin que des millions de femmes font tous les jours sans se poser plus de questions Pourtant selon le contexte politique religieux dans lequel on vit cette façon de rehausser la couleur naturelle de ses lèvres peut être interprétée comme un acte de subordination de revendication politique La beauté souvent assimilée à une arme de subordination permet en effet de s'affirmer en tant que femme et de faire contrepoids la force physique ou militaire des hommes Ce n'est pas un hasard si tout au long de l'histoire les religions les régimes dictatoriaux ont tenté de garder sous contrôle cette beauté considérée comme un danger La résurgence de l'obligation du port du voile en Orient mais aussi pour les musulmanes d'Occident rend plus que jamais d'actualité cette question du supposé danger de la beauté féminine Un bel ouvrage qui retrace les modes selon les époques EXTRAIT La recherche de la beauté est elle innée chez les premiers hommes ou n'est elle que la conséquence de certaines pratiques telles que l'adaptation au climat ou des questions d'hygiène qui auraient ensuite abouti à une véritable démarche esthétique Nul ne peut répondre Les premiers indices de beauté féminins semblent liés à des besoins utilitaristes tels que la survie de l'espèce mais il faut aussi s'interroger sur la place de la femme dans le groupe l'époque préhistorique et sur la liberté qui lui était laissée pour toute recherche ou première tentative afin de mettre son corps en valeur Le critère de survie de l'espèce est un facteur central qui explique très certainement les premiers essais de mise en valeur des femmes qui par des moyens artificiels maquillage habillement tentent de mettre le signe qu'elles sont fertiles Ce qui expliquera plus tard les restrictions de certaines religions ou civilisations face à ce qu'elles assimilent des mises en scène de signes d'excitation sexuelle une façon de tromper son partenaire
