An Anarchy of Families Alfred W. McCoy, 2009 Winner of the Philippine National Book Award this pioneering volume reveals how the power of the country's family based oligarchy both derives from and contributes to a weak Philippine state From provincial warlords to modern managers prominent Filipino leaders have fused family politics and business to compromise public institutions and amass private wealth a historic pattern that persists to the present day Edited by Alfred W. McCoy *An Anarchy of Families* explores the pervasive influence of the modern dynasties that have led the Philippines during the past century Exemplified by the Osmeñas and Lopezes elite Filipino families have formed a powerful oligarchy controlling capital dominating national politics and often owning the media Beyond Manila strong men such as Ramon Durano Ali Dimaporo and Justiniano Montano have used guns goons and gold to accumulate wealth and power in far flung islands and provinces In a new preface for this revised edition the editor shows how this pattern of oligarchic control

Madsen, 2003-08-20 This book challenges the boundaries of postcolonial theory Focusing on American literature it examines how America s own imperial history has shaped the literature that has emerged from America from Native American Latino Black and Asian American writers They contrast this with postcolonial literature from countries whose history has been shaped by American colonialism from Canada Central America and the Caribbean to Hawaii Indonesia and Vietnam It explores questions about national identity and multiculturalism why for instance is a Native writer categorised within American literature if writing on one side of the border but as Canadian and postcolonial if writing on the other This is a challenging collection that raises questions not only about the boundaries of postcolonial theory but also about ethnicity and multiculturalism and the impact of immigration and assimilation **The Saint's Day Deaths** Albert Noyer, 2000
