Teacher Quality Teaching Quality And School Improvement:

Teacher Quality, Teaching Quality, and School Improvement Leslie S. Kaplan, William A. Owings, 2002 A guide for school administrators in identifying hiring and supporting high quality teachers Improving Quality in Education Bert P.M. Creemers, Leonidas Kyriakides, 2013-07-03 This book explores an approach to school improvement that merges the traditions of educational effectiveness research and school improvement efforts It displays how the dynamic model which is theoretical and empirically validated can be used in both traditions Each chapter integrates evidence from international and national studies showing how the knowledge base of educational effectiveness research can be used for improvement purposes In a clear and practicable manner it outlines Foundations of the improvement approach Research projects investigating the impact of the dynamic approach Guidelines and practical solutions to translating the approach into action Further developments for school improvement Exploring the crucial factors in the establishment of this environment the authors outline a dynamic framework that helps schools collect data through self evaluation mechanisms taking decisions about priorities for improvement and developing appropriate policies and action plans This approach emphasises educational targets and provides means to achieve them that are flexible enough to fit in with the circumstances of the individual school The book draws upon research across the world conducted especially in the United States Europe and Australasia expertly showcasing how the dynamic approach can be used in a wide variety of educational settings A key book for all professionals working in education academics researchers policy makers school advisors and practitioners will find it invaluable Not only it is a must for graduate students university libraries and individual academics but also for school management teams school support agencies and officials in educational policy *The Metrics of Teacher Effectiveness and Teacher Quality Research* Andrew Skourdumbis, Shaun Rawolle, 2020-03-05 Most developed nations measure the performance of teachers in audit evaluations of school productivity Accountability metrics such as teacher effectiveness and teacher quality dominate evaluations of student outcomes and shape education policy The Metrics of Teacher Effectiveness and Teacher Quality Research explores how these metrics distort analyses of student achievement sideline broader contextual and systemic influences on learning reinforce input output analysis of schooling and skew the educational debate Focusing on recent phases of school education policy reform this book utilizes qualitative data from classroom teacher participants to examine how and why issues of teacher effectiveness and teacher quality figure so prominently in policy reform and why pressing matters of social class school funding and broader contextual influences are downplayed The authors use this information to suggest how teachers can develop their role as pedagogic experts in a highly scrutinized environment This book will be of great interest to education academics and postgraduate students specializing in teacher performance accountability and governance **Improving Teacher Quality** Motoko Akiba, Gerald LeTendre, 2009 This groundbreaking work examines teacher quality work norms and professional learning opportunities using data from 15 countries The authors compare and

contrast the United States with two high achieving countries Japan and Australia that have implemented very different approaches to improving teacher quality Drawing on both large international data sets and ethnographic and small scale studies the book addresses critical questions 2 How do teacher quality and teacher recruitment and hiring policies in the United States differ from those in other countries 2 How do the working conditions of U S teachers differ from those of teachers in other countries 3 How do U S teachers opportunities for professional learning differ from those of teachers in other countries 4 How do the characteristics of the national teaching force influence student achievement And 5 What U S policies offer promise for improving teacher quality

Improving Quality in Education: Dynamic Approaches to School Improvement Judy Decker, 2023-09-19 School improvement refers to a process through which schools become more effective in terms of academic outcomes as well as in developing the social and cultural well being of the children and adults within the school Improving schools requires conscious efforts to ensure greater school achievements by undertaking certain actions such as modifying and modernizing the classrooms and changing the management arrangements in a way that leads to the improvement of teaching and learning School improvement involves the improvement of the internal and external environment Internal school improvement model focuses on promoting teacher quality exercising leadership and ensuring effective management External school improvement model emphasizes on maintaining the quality of relations with parents and the community This book examines the diverse dynamic approaches to school improvement It will prove to be immensely beneficial to teachers schools and all who are involved in education management

Improving Teacher Quality Sabrina W. Laine, Molly Lasagna, Ellen Behrstock-Sherratt, 2010-12-07 Techniques for the difficult task of improving teacher quality No one stakeholder group can realize lasting change on their own nor can any reform initiative focusing on just one type of strategy create the workplace conditions needed to truly build capacity within the education profession Rather stakeholders must focus on collaborating reaching common understanding and prioritizing for ultimate impact on the quality of teachers and teaching This book discusses research and concrete examples of practice tied to teacher quality intended to improve eight key interrelated factors Preparation Recruitment Hiring Induction Professional Development Compensation and Incentives Working Conditions and Performance Management Offers a framework and strategies for understanding the issues that make up the teacher quality question Written for educational leaders superintendents district administrators teacher leaders and principals as well as policy makers and other stakeholders Filled with illustrative examples teacher quality The author addresses the most important factor that affects student achievement the quality of the teacher

Measurement Issues and Assessment for Teaching Quality Drew H. Gitomer, 2009 A comprehensive text that allows headteachers and school managers to monitor teacher quality

Teacher Quality 2.0 Frederick M. Hess, Michael Q. McShane, 2014 Debates over teacher quality are among the most heated exchanges in the education reform arena But while scholars and policy makers grapple with questions about teacher preparation compensation and evaluation the role of

teachers is changing In schools across the country educators are experimenting with new models for recruiting training and supporting teachers and are innovating strategies for deploying their talents through differentiated roles and the use of technology Most of the policy measures currently under consideration however are designed with a one size fits all approach Teacher Quality 2 0 argues that much cutting edge work in teacher quality is happening in nontraditional environments such as online or hybrid learning where teacher roles can be very specialized or in charter schools that are experimenting with new approaches to staffing The editors examine fruitful innovations taking place on the margins of the traditional education sector that promise to improve teacher quality in a more strategic way More flexible approaches to teacher quality the editors caution require vigilance against backward looking policies that bake in traditional assumptions about teachers roles The editors of this provocative volume have convened a diverse array of contributors to look ahead to explore these emerging practices and investigate how current research and policy initiatives may affect the next generation of innovation in teaching

Incentives Robert Palaich, Ellen Flannelly, 1984 *The Quality of Education* David W. Chapman, Donald K. Adams, 2002

This volume is part of the series Education in Developing Asia It examines dimensions and strategies regarding the quality of education
