*International Handbook of Educational Policy* Nina Bascia, Alister Cumming, Amanda Datnow, Kenneth Leithwood, David Livingstone, 2008-05-14 Nina Bascia Alister Cumming Amanda Datnow Kenneth Leithwood and David Livingstone This Handbook presents contemporary and emergent trends in educational policy research in over 40 chapters written by nearly ninety leading researchers from a number of countries It is organized into five broad sections which capture many of the current dominant educational policy foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serendipity within chapters with respect to jurisdictional particularities and contexts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through increasingly critical and outsider perspectives on policy They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy

*Connecting Leadership with Learning* Michael A. Coplan, Michael S. Knapp, 2006-10-15 What kind of leadership makes learning possible for all students How can school leaders help teachers increase their knowledge and improve their instructional abilities What actions should leaders take to ensure that learning occurs In *Connecting Leadership with Learning* A Framework for Reflection Planning and Action Michael A Copland and Michael S Knapp give educational leaders a new way to answer these questions and find solutions perfect for their particular school environment Copland and Knapp assert that far too many educational leaders are struggling with outdated curricula demands that don't align with their school or district goals and professional meetings that are high on complaints but low on solutions Instead of prescribing a linear or rigid approach the authors encourage educators to be attentive and tune into their leadership actions by using the Leading for Learning Framework The framework provides different vantage points to help leaders reflect on their strengths and weaknesses plan for improvement and take actions to foster learning for students teachers and professionals and school and district leaders The Leading for Learning Framework will empower leaders to Establish a focus on equitable learning Build professional communities Engage communities and external partnerships Act strategically and share leadership Create coherence in their leadership actions The book includes extended case studies descriptions of 23 different leadership pathways and many examples from schools and districts that show the Leading for Learning Framework in action There is no magic formula for great school leadership but Copland and Knapp conclude that magic can happen when leaders reframe their efforts to focus more clearly on learning
