One Country, Two Systems in Crisis Wong Yiu-chung, 2008-06-19 In the tumultuous negotiations of the Sino British Joint Declaration of 1984 the United Kingdom willingly signed over Hong Kong's reigns to the People's Republic of China but with the presupposition that the PRC would faithfully implement the principle of one country two systems for the following fifty years Yet since the handover in 1997 the PRC has failed to allow Hong Kong a higher degree of autonomy One Country Two Systems in Crisis elucidates how China's

intervention has curtailed Hong Kong's civil liberties how freedom of speech is at the mercy of the government and how deception has turned the Pearl of the Orient into the rubber stamp of the Chinese Communist Party

Managing Public Services Ahmed Shafiqul Huque, Grace Lee, 2018-01-12 This title was first published in 2000 The management of public services is becoming an increasingly difficult task Demands are increasing while funds appear to be decreasing but quality of service must remain high New services are required demands have to be faced activities don't always go according to plan and problems emerge in unexpected places and at unusual times and public managers are expected to deal with these deviations from their regular work patterns While some activities are concrete in nature and can be seen such as medical care and education others are obscured from public view With governments emphasizing areas that produce visible and quantifiable results they often neglect the intangible services that must also be provided to the public Poor performance in these areas can contribute to major crisis in public organizations This volume examines four case studies in the context of the changing political and social environment of the new Hong Kong Special Administrative Region of the People's Republic of China The use of these cases from the public sector in Hong Kong will hopefully help readers to understand the difficulties faced by modern governments in providing basic services to the public

Poverty in the Midst of Affluence Leo F. Goodstadt, 2014-12-01 Hong Kong is among the richest cities in the world Yet over the past 15 years living conditions for the average family have deteriorated despite a robust economy ample budget surpluses and record labour productivity Successive governments have been reluctant to invest in services for the elderly the disabled the long term sick and the poor while education has become more elitist The political system has helped to entrench a mistaken consensus that social spending is a threat to financial stability and economic prosperity In this trenchant attack on government mismanagement Leo Goodstadt traces how officials have created a new poverty in Hong Kong and argues that their misguided policies are both a legacy of the colonial era and a deliberate choice by modern governments and not the result of economic crises This provocative book will be essential reading for anyone wishing to understand why poverty returned to Hong Kong in this century The book has been thoroughly revised and updated for this new paperback edition Leo Goodstadt has identified the New Poor as those made vulnerable through diminishing access to essential services and opportunities The culprits are misguided policies and the callous and uncaring decisions of those in power This compelling critique carries weight and demands a response Christine Fang Former Chief Executive of The Hong Kong Council of Social Service This is a critical reflection on Hong Kong's path of social development and a most discerning analysis of the Third World mentality espoused by the government and the business community in the area of social welfare Lui Tai lok Chair Professor of Hong Kong Studies The Hong Kong Institute of Education Welfare spending was like pouring sand into the sea to reclaim land thought one Chief Executive Governments restrained social spending based on that skewed view This book is meticulously researched and painfully insightful It is a masterly chronicle of Hong Kong's social welfare policy Anna Wu Non Official Member of the

Executive Council HKSAR **Implementation of Law in the People's Republic of China** Jianfu Chen, Yuwen Li, Jan Michiel Otto, 2021-08-04 China after some twenty years of reform is no longer a country without law. Indeed, one may legitimately complain that there are too many laws that are changing too rapidly. However, law acquires no life nor performs its intended social functions without proper implementation and enforcement. Here, few people Chinese or foreign are content with the general situation of implementation of law in China. The problems and difficulties in implementing and enforcing laws and regulations are reported and discussed in the various forums of the Chinese media almost on a daily basis and often reported in Western media also. Academics in China are filling the pages of various legal journals with their diagnoses and analyses of the causes of and solutions to the lack of proper implementation of law and legal regulations and policy measures are being issued to deal with these problems and to overcome the difficulties. The future of the rule of law in China, as we are so often reminded by scholars of Chinese politics and law, largely depends on the proper implementation and enforcement of law. This is a book about law in action in China that is, it focuses on the administration of the law as a process through which law in the books is put into action and hence is made to perform its intended social functions. It deals with the process, the institutional settings, the players and the political, economic, social and cultural settings, the factors involved in the administration of law in China. Throughout the book, we will see a variety of problems and difficulties involved in implementing and enforcing laws and regulations that are identified and analyzed by the contributors. We will also see analyses on legal regulations and policy measures that have been issued to rectify the many identified problems to raise the standard of actual implementation of law and to improve the functioning of the various law implementing/enforcing authorities. Additionally, the book provides various case studies on implementation of law in China. The present book, we believe, is among the first collective efforts at a systematic and comprehensive study of the implementation of law in China and we hope that it will stimulate many more such studies on the actual operation and impact of law on society and on individuals.
