Others Joseph Hillis Miller, 2001-10-21 This volume fulfills the author's career-long reflections on radical otherness in literature J Hillis Miller investigates otherness through ten nineteenth and twentieth century authors Friedrich Schlegel Charles Dickens George Eliot Anthony Trollope Joseph Conrad W B Yeats E M Forster Marcel Proust Paul de Man and Jacques Derrida From the exquisite close readings for which he is celebrated Miller reaps a capacious understanding of otherness one reachable not through theory but through literature itself Otherness has wide valence in contemporary literary and cultural studies and is often understood as a misconception by hegemonic groups of subaltern ones In a pleasing counter to this Others conceives of otherness as something that inhabits sameness Instances of the wholly other within the familiar include your sense of self or your beloved your sense of your culture as such or your experience of literary theoretical and philosophical works that belong to your own culture works that are themselves haunted by otherness Though Others begins and ends with chapters on theorists the testimony they offer about otherness is not taken as more compelling than that of such literary works as Dickens's *Our Mutual Friend* Conrad's *The Secret Sharer* Yeats's *Cold Heaven* or Proust's *Remembrance of Things Past* Otherness as this book finds it in the writers' read is not an abstract concept It is an elusive feature of specific verbal constructs different in each case It can be glimpsed only through close readings that respect this diversity as the plural in the title Others indicates We perceive otherness in the way that the unseen and the characters' emotional responses to it ripple the conservative ideological surface of Howard's *End* We sense it as chaos in Schlegel's radical concept of irony And we gaze at it in the multiple personifications of *Heart of Darkness* Each testifies in its own way to the richness and tangible weight of an otherness close at hand **The Other Side of Silence** Margaret Mahy, 1997 A
