strangeness of the original Greek and its enduring human truth come alive in language that is remarkable for its unrelenting poetic intensity its rich metaphorical texture and a verbal density that can at times modulate into the simplest expressions

Easterling traces some connections between the ideas found in the tragedians and earlier Greek thought **Restorations of Empire in Africa** Samuel Agbamu, 2024-03-13 The histories of Europe and Africa are closely intertwined At times this closeness has been emphasized at other times suppressed and denied Since the nineteenth century European imperial powers have carved up the continent of Africa among themselves drawing borders and charting shorelines in the process inventing Africa This was a project anchored in ancient Greek and Roman representations of Africa For Italy colonialism in Africa was a matter of consolidating its project of national unification nominally completed in 1870 with the capture of Rome By asserting its position as an imperial power the young nation of Italy hoped to join the club of European nation states and in so doing be rid of the perception that it was a country somewhere in between Europe and Africa Yet Italy's colonial endeavour in Africa was also a project with deep historical meaning Italy posed its imperial project in Africa as a national return to territory which was rightfully Italian Italian ideologues of imperialism based this claim on the history of Roman history on the continent When Italian soldiers disembarked on the beaches of Libya during Italy's invasion of 1911 1912 and came across the ruins of Roman imperialism they were according to prominent cultural and political figures in Italy rediscovering the traces of their ancestors Yet when Italian imperial ambitions set their sights on East Africa regions that had not been conquered by Rome how could Italy nevertheless shape its imperial project in the image of ancient Rome This book charts this story Beginning with Italy's first imperial endeavours on the African continent in the last decades of the nineteenth century and continuing right through to Italy's current attitudes towards Africa this book argues that empire in Africa was a central aspect of Italian nation building and that this was a project which anchored itself in memories of ancient Rome in Africa Although Fascism's invasion of Ethiopia 1935 1936 is the best known moment of Italian imperialism in Africa this book shows that Italian imperialism modelled on ancient Rome has a history which long predates Mussolini's movement and has a legacy which continues to be acutely felt **Aeschylus's the Oresteia** Harold Bloom, 1988
