Dissecting Stephen King Heidi Strengell,2005 In a thoughtful well informed study exploring fiction from throughout Stephen King s immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed

sexuality of the vampire the hubris of Frankenstein the split identity of the werewolf the domestic melodrama of the ghost tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader's childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival depending on their moral strength and the responsibility they may take for their fellow men

Cowboy Politics John S. Nelson, 2017-11-01 The politics of popular westerns are surprising in substance and significance especially of late Cowboy Politics shows how westerns in literature cinema and television face the challenges of Western Civilization even more than the perils of American frontiers Its strategy is to compare key westerns with major theories of modern and postmodern politics So it analyzes novels from Owen Wister to Zane Grey and Larry McMurtry It focuses on films from the western revival beginning in the 1990s and featuring Clint Eastwood's *Unforgiven* while its interest in TV stretches from singing cowboys and Gunsmoke to David Milch's *Deadwood* Critics are apt to find in westerns the modern politics of Thomas Hobbes and John Locke They tap devices of individuality rationality contract sovereign enforcement and representation to overcome the chaotic violence of a wild zone Cowboy Politics examines how westerns often find such measures insufficient to tame the West as a culture of honor and anger that deteriorates into feudal vengeance Instead westerns see the West as the sunset land that is already growing old and moving on So westerns seek fresh starts informed by comparing civilizations more than demonizing savages Westerns worry that modern politics devolve into exploitation oppression spectacle and terror So they pursue supplements in such postmodern politics as republicanism perfectionism populism feminism and environmentalism Especially westerns explore politics of persuasive speech in action in public doing beauty and self reliance in the modes of Hannah Arendt and Ralph Waldo Emerson The first two chapters of Cowboy Politics explain how westerns do political theory for popular audiences by making many of our myths the symbolic stories of individuals and communities which we live daily The next three chapters trace the initially modern theories of government in many westerns Then western turns to republican honor rhetoric response ability and character tracking occupy the following four chapters And these set the stage for another four chapters on western attention to postmodern terror mythmaking celebrity spectacle and forgiveness The final two chapters analyze how late satirical and transformative westerns develop realist defenses for their surprisingly postmodern politics
