Sir Alfred Ewing A Pioneer In Physics:

Sir Alfred Ewing, K.C.B. ... A Pioneer in Physics and Engineering. [With Plates, Including a Portrait.]. Leslie Fleetwood BATES, Sir James Alfred Ewing, 1946 **Sir Alfred Ewing,... a Pioneer in Physics and Engineering, By... L. F. Bates,...** L. F. Bates, 1946 Sir Alfred Ewing Leslie Fleetwood Bates, 1946 **Sir Alfred Ewing, K.C.B., D.C.L., D.Sc., F.R.S.** Leslie Fleetwood Bates, 1946 **A Victorian Scientist and Engineer** Gillian Cookson, Colin Hempstead, 2017-10-19

This title was first published in 2000 In a life of only 52 years Fleeming Jenkin established his reputation as a pioneer in the new world of electrical engineering known for his work on undersea telegraphs and later on the electrical transportation system known as telpherage Equally at ease in the realms of theory and practice from 1850 until his death in 1885 Jenkin engaged in every field of Victorian engineering As a young adult he worked on intercontinental submarine telegraphy the cutting edge technology of its day which was inextricably bound to the new science of electricity Jenkin was both a scientist and an engineer a prototype of the modern experimental research engineer He was also a distinguished academic professor of engineering in the University of Edinburgh admired as an inspired and innovative teacher and for his interest in the philosophical tenets underpinning his subject Yet in spite of his influence as an early electrical engineer and his other intellectual achievements despite the celebrity of his associates Robert Louis Stevenson Mrs Gaskell and leading engineers of the day were among his close friends and the way that submarine telegraphs seized the Victorian popular imagination Jenkin himself has remained an obscure figure He deserves to be better known The story of Jenkin is of a life lived to the full It illuminates many aspects of Victorian intellectual society and of the organisation of science and engineering in his time The central purpose of this biography is to show Jenkin s achievements in engineering and in other fields and to judge his significance in these diverse activities **Hydraulicians in Europe 1800-2000** Willi Hager, 2014-03-21 More than 850 individuals partly forgotten by name but sometimes found in historical writings together with many well known or recently deceased persons are presented in terms of bio data short career highlights and main advances made to the profession with a short biography of the main writings If available a portrait is also included **Technology in World Civilization** Arnold Pacey, 1991-07-01 Most general histories of technology are Eurocentrist focusing on a main line of Western technology that stretches from the Greeks is through the computer In this very different book Arnold Pacey takes a global view placing the development of technology squarely in a world civilization He portrays the process as a complex dialectic by which inventions borrowed from one culture are adopted to suit another *Routledge Library Editions: Higher Education* Various, 2021-03-29

The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and

practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology

The Electrical Review ,1922 **The Universities and British Industry** Michael Sanderson,2018-10-11 Originally published in 1972 The University and British Industry examines the lively and controversial relationship between British industry and the university The book looks at the impact of industry on the development of British universities from the 1850s to the 1970s and with contribution from the universities to industry through scientific research and the supply of graduate skills The book argues that the close involvement of the universities and industry has been one of the chief beneficial forces shaping the British universities movement in the last hundred years It gives an account of the changes which took place within the universities to make them more suitable for industries purposes describing for example the early rise of the English civic universities strongly financed by and closely supporting industry The book also considers how during the two world wars industry became highly reliant on the universities for the war technology and how despite the depression between the wars university research and graduate employment embraced the widening opportunities of the new industries The book also discusses the expansion of the university in the sixties and points out that industrial motives have merged with those of social justice posing dilemmas for present and future relations between universities and industry
