**Animal Narratives and Culture** Anna Barcz, 2017-03-07

The term vulnerable realism can imply two different understandings one presenting weak realism as incomplete and mixed with other literary styles the other bringing realistic vulnerable experience into narration The second is the key concern of this work though it does not exclude the first as it asks questions about realism as such entering into a polemic with the tradition of literary realism Realism then is not primarily understood as a narrative style but as a narration that tests the probability of nonhuman vulnerable experience and makes it real The book consists of three parts The first presents examples of how realism has been redefined in trauma studies and how it may refer to animal experience The second explores what is added to the narrative by literature including the animal perspective the zoonarrative and how it is conducted zoocriticism The third analyses cultural texts such as painting circuses and memorials which realistically generate animal vulnerability and provide non anthropocentric frameworks anchoring our knowledge in the experience of fragile historical reality

**Incarnations of**

**Material Textuality** Katarzyna Bazarnik, Izabela Curyłło-Klag, 2014-10-02 Liberature coined from the Latin liber is simultaneously a movement in contemporary Polish literature and a term referring to literary works that integrate text and material features of the book into an organic whole in accordance with the author's design The present volume collects essays inspired by this theoretical concept first proposed by Polish poet Zenon Fajfer in 1999 but soon picked up and elaborated on by international scholars As noted by the contributing authors preceding Jessica Pressman's idea of bookishness and coinciding with N Katherine Hayles fundamental writings liberature appeared at the end of the 20th century as if to resume and systematize the intuitions and provocative statements of writers concerned with the future of the book It fits into a wider turn towards the recognition of the embodied nature of information in anthropology literary textual media and AI studies Yet its distinctness consists in the fact that it was suggested by a creative writer and that it proposes to see the authorially shaped materiality of writing in terms of a literary genre The essays collected here present the modernist roots and inspirations of liberature address the semantics of typography and the question of materiality of literary writing

and explore how the abstract body of the printed book is transformed into an experience of embodiment The volume is completed with a reprint of Fajfer s seminal essays with a view to making them more available to English speaking readers

Polish Literature as World Literature Piotr Florczyk,K. A. Wisniewski,2022-12-15 This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States Canada Italy and of course Poland An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature Indeed the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions active participants in the global literary network and the conversations of their day The volume features views of Polish literature and culture within theories of world literature and literary systems with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact This perspective is especially important since so much of today s global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes The collection also sheds light on specific issues pertaining to Poland such as the idea of Polishness and global phenomena including social and economic advancement as well as ecological degradation Some of the authors discussed like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czeslaw Milosz were renowned far beyond the borders of their country while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism seeing as they do in their immediate surroundings a synecdoche of the world at large Nevertheless the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters

**(Un)masking Bruno Schulz** ,2009-01-01 Whatever critical scalpel one selects for dissecting the literary works of Bruno Schulz 1892 1942 there will always be a certain degree of textual resistance which cannot be broken Or in other words taking off one of Schulz s many masks one will probably never avoid the impression that a new mask has emerged This book contributes to the three most typical critical strategies of reading Schulz s works combinations fragmentations reintegrations being fully aware of course of the relativity of each particular approach In addition the book sets out to explore all of Schulz s creative output i e his stories as well as his graphic epistolary and even literary critical works as one of Schulz s main goals was exactly to cross artificially set up boundaries between among other things different artistic media of expression The book for the first time brings together leading Schulzologists Jarz bski Robertson Sproede and their prospective successors Augsburger Gorin Kato Sucha ska Dra y ska Underhill Wojda established Polish academics D browski Markowski Skwara Weretiuk and their foreign counterparts De Bruyn Gall Meyer Fraatz Schulte Zieli ski scholars primarily working on other authors Anessi liwa urek and those focusing on other art forms S nchez Pardo Watt The editors introduction offers an overview of seven decades of Schulzology The book is of interest for both readers with a general interest in world literature and or a particular interest in Polish and Jewish studies
