

Teacher Burnout

LM Reder

Teacher Burnout:

Teacher Burnout in the Public Schools Anthony Gary Dworkin, 1987-01-01 This unique study is the first large scale sociological analysis of teacher burnout linking it with alienation commitment and turnover in the educational profession In the process of doing so Anthony Gary Dworkin uncovers some startling trends that challenge previous assumptions held by public school administrators Urban public school districts spend up to several million dollars annually on programs intended to rekindle enthusiasm among their teachers hoping thereby to reduce the turnover rates They also assume that enthusiastic teachers will heighten student achievement Yet data presented in *Teacher Burnout in the Public Schools* challenge these suppositions Dworkin s research shows teacher entrapment rather than teacher turnover as the greater problem in education today Teachers are now more likely to spend their entire working lifetime disliking their careers and sometimes their students rather than quitting their jobs and Dworkin proposes that principals more than any other school personnel can do much to break the functional linkage between school related stress and teacher burnout The author s findings also indicate that burned out teachers pose a minimal threat to the achievement of most children but that they do have an adverse impact on brighter students *Teacher Burnout in the Public Schools* includes an inventory of supported propositions and three levels of policy recommendations These important policy recommendations suggest substantial organizational changes in the nature of the training of public school teachers in the college educational curriculum in the teacher employment and deployment practices of school districts as well as in the administrative style of school principals

Rekindling the Flame Barbara L. Brock, Marilyn L. Grady, 2000-07-18 Refreshing and enlightening This book is for the teacher concerned about his career the school administrator concerned about staff morale and the college instructor concerned about the preparation of aspiring educators Finally it is an excellent book for school board members and state level policy makers in understanding the challenges facing school administrators Jack McKay Interim Dean College of Education and Professional Studies Central Washington University Ellensburg *Rekindling the Flame* should be required reading for principals and teachers Educators will appreciate the practical information to help recognize and manage professional burnout This book has international appeal for principals teachers and those who employ them Jennifer Fraser Principal St Michaels Primary School Baulkham Hills New South Wales Australia A practical guide for administrators to revitalize teachers There is no greater loss for a school than to lose a good teacher to burnout Become a more effective school administrator by helping your teachers stay motivated and vibrant *Rekindling the Flame* offers a researched based but practical approach to recognizing managing and preventing one of the great tragedies of education teacher burnout The challenges of education today can send even the best teacher spiraling down and out Savvy administrators spot the signs of teacher distress and take preventative action before it is too late Brock and Grady utilize existing research and practice to provide accessible real life solutions to help busy administrators understand and prevent staff burnout Highlights include Recognizing burnout origins and symptoms

Personality profile of the susceptible teacher Organizational and administrative issues Strategies for recovery and prevention
 The principal's role Effective ongoing management tending the flame Any administrator concerned about keeping good
 teachers motivated will want this book It is an essential guide for principals school administrators staff development
 programs graduate courses in educational administration and an inspiration for every teacher Understanding and
 Preventing Teacher Burnout Roland Vandenberghe, A. Michael Huberman, 1999-05-28 International specialists review
