Teachers Art Peterson,1985 *Writing With* Sally Barr Reagan,Thomas Fox,David Bleich,1994-07-01 This collection of essays on diverse issues in collaborative work illuminates the next direction for the study and practice of collaboration in classrooms and research projects The essays probe more deeply than any previous work into the political social and individual psychologies of students teachers and researchers working together Beginning with a critique of the ideology of individualism the authors treat classroom issues at all levels from middle school through graduate school Advocating an affirmative philosophy of collaboration the authors attempt to understand both its shortcomings and its successes as illustrated in many examples of essays and comments written by students in collaborative projects *The Elementary / Middle School Counselor's Survival Guide* John J. Schmidt,2010-07-23 An expanded edition filled with ideas strategies and tools for school counselors This Survival Guide helps counselors plan and implement an effective counseling program tailored to the needs of all students Step by step the book walks readers through every aspect of the school counselor job including designing a comprehensive counseling program communicating with students and fellow staff facilitating groups promoting positive school discipline integrating a guidance curriculum intervening in times of crisis and taking personal and professional care of oneself Discusses how to reach out to diverse student and parent populations Shows how to integrate the American School Counselor Association s National Model for designing delivering and evaluating a school s counseling program Reveals how new technology can improve services to students and parents Other titles by Wiggin I O U S A Demise of the Dollar and Financial Reckoning Day This comprehensive resource also includes a wealth of reproducible worksheets letters checklists and forms designed to save time and effort for busy school counselors **Journal of Reading** ,1987

The Writer's Workout Book Art Peterson,1996 **The Middle School Survival Guide** Arlene Erlbach,2009-07-15 The only survival guide a middle school kid will ever need It can be the best of times It can be the worst of times too Middle school happens at that tumultuous time in life when one s not a teenager and not a little kid Middle school means being a middle aged kid Expectations from teachers parents friends siblings can all change dramatically causing worry and concern even for the most laid back student The Middle School Survival Guide covers every issue inside school and out from the most trivial concerns to the most serious issues that middle school students face today Arlene Erlbach has assembled a teen advisory board of 200 kids between fifth and tenth grade who give advice about topics from cracking a locker combination to dealing with multiple teachers to sex and dating *Head on the Block* Tony Cooper,2012-11-29 Who is really in charge of our schools the headteachers or the politicians Tony Cooper lifts the lid on leading a school at a time of increasing accountability and government interference In December 2011 Tony Cooper retired from the headship of a comprehensive secondary school in Cambridgeshire after almost a quarter of a century in post In *Head on the Block* he reflects on the many issues that have affected education over this time discussing their impact on schools in general and his own school in

particular He places issues and events within a social and historical context showing how education has been subjected during the period of his career to vastly increased political interference His commentary is interspersed with many personal recollections and anecdotes both humorous and serious as he presents a critique of the condition of state education today and how the role of the headteacher has changed He takes a light hearted look at his own school and university education and shows how the successes and amusing mishaps of his early career impacted on his decision to seek headship The author loses no opportunity to take issue with the seemingly endless stream of government initiatives which have been flung at headteachers impinging on the management of schools and unduly influencing the content and delivery of the school curriculum At the same time he delivers an irreverent swipe at today s climate of political correctness and the continual need for change for its own sake Above all he challenges the current results orientated target driven culture which has been systematically inflicted on schools making a plea for education to be as broad as possible and enjoyable for its own sake rather than simply a means to an end
