Maddox,2002-06-10 Song of the Ogeechee is based on a true story about two cousins who were like brothers born to families of affluent cotton planters in early 19th century Georgia who encountered set backs and ordeals caused by the Civil War followed by other hardships during the Reconstruction period It continues after this period to tell how they overcame problems and responded to adverse conditions to be recognized for their efforts in a world that was busy with industrial progress and social change The Allen cousins were born in Burke County near Midville not far from the Ogeechee River Dr Young John Allen spent his life in China and when he died was well known throughout China Korea Japan and America for his achievements as a Methodist missionary in China from 1860 to 1907 Capt John P Allen spent his life in Dawson and Terrell County Georgia and when he died was well known throughout the South as a member of the Immortal Six Hundred and as a pioneer citizen and reputable jeweler in Dawson The author attempts to tell this story for the first time to relate the amazing account of heritage and inherited talent in the Allen family through the symbol of a silver chalice passed on to descendants from 1857 and the magic of the Ogeechee River the Indian name for River of Songs Historic Watermills of North America Ken Boyd,2020-12-08 112 full color artistic photographs of watermills still standing on the North American landscape The scenic beauty of the watermill is undeniable The iconic waterwheel has inspired romantics for generations with their warmth

and charm Watermills were once ubiquitous landmarks along brooks creeks and rivers across North America Today only a scattering of the old watermills grace the countryside but through these mills and the turning of their wheels and the whirling of their stones a small but spectacular part of history lives on Through stunningly beautiful images Historic Watermills of North America A Visual Preservation presents 112 watermills still standing on the North American landscape With idealized full color photographs Ken Boyd nostalgically hearkens back to a time after European settlement when these structures were the very heart of the communities whose livelihoods they made possible These mills turned the power of flowing water into mechanical energy to grind corn and wheat into meal and flour saw timber loom wool and cotton cloth and more for the benefit of their operators and communities At one time vital to their surrounding regions most of these surviving mills are in rural areas that have been passed over by modern development Their designs are as individual as their makers and their settings are as varied as the landscape Some have been converted into homes or museums or are part of local tourist attractions Others have been abandoned but give witness to the significance of their heydays and others are still in use doing the same work they have done for generations Boyd s beautifully rendered photographs preserve these extant structures and represent a variety of watermills across the United States and Canada Each mill photograph is accompanied by a description providing the name of the mill its location date of construction and brief comments highlighting its most noteworthy features Additional photographs and commentary in the afterword explore the inner workings of watermills
