The Open University History Evaluation Of A Dynamic Innovation In Higher Education:

"The" Open University Walter Perry,1977 As If Learning Mattered Richard Earl Miller,1998 Writing with wit and precision Miller shows why the system of higher education has been particularly resistant to reform Unraveling stereotypes about conservative liberal and radical reform efforts Miller looks at what has actually happened when theories about education have been put into practice What did Matthew Arnold do as a school inspector to promote the study of the best that has been thought and said in our time Digital Academe William H. Dutton,Brian D. Loader,2005-06-29 This book responds to an ever increasing call from educators policy makers journalists parents and the public at large for analysis that cuts through the hype surrounding the information revolution to address key issues associated with new media in higher education and learning This collection is of value to those who are seeking a critical non commercial exposition of both the enormous opportunities and challenges for higher education that are tied to the use of new information and communication technologies ICTs in the development of distance education and distributed learning The chapters are written by leading exponents practitioners and researchers from a variety of disciplinary perspectives and the collection as a whole spans national boundaries and reaches beyond the research community to relate to issues of policy and practice
