Jones, 1998-07-02 Beauty is one of the most important and intriguing ideas in eighteenth century culture In *Gender and the Formation of Taste in Eighteenth Century Britain* Robert Jones provides a fresh understanding of how emergent critical discourses negotiated with earlier accounts of taste and beauty in order to redefine culture in line with the polite virtues of the urban middle classes Crucially the ability to form opinions on questions of beauty and the capacity to enter into debates on its nature was thought to characterise those able to participate in cultural discourse Furthermore the term beauty was frequently invoked in various and contradictory ways to determine acceptable behaviour for women In his book Jones discusses a wide range of material including philosophical texts by William Hogarth and Edmund Burke and Joshua Reynolds novels by Charlotte Lennox and Sarah Scott and the many representations of the celebrated beauty Elizabeth Gunning The Development of the Art Market in England Thomas M Bayer, John R.
