The Original Messianic Myth Of Judaism:

The Original Messianic Myth of Judaism Russell C. Coley, 1991-02-01 **Political Theologies in the Holy Land**

David Ohana, 2009-10-16 This book examines the role of messianism in Zionist ideology from the birth of the Zionist movement through to the present. It shows how messianism is not just a religious or philosophical term but a very tangible political practice and theology which has shaped Israeli identity. The author explores key issues such as the current presence of messianism in the Israeli public sphere and the debates with Jewish settlers in the occupied territories after the 1967 war, the difference between transcendental messianism and promethean messianism, the disparity between the political ideology and political practice in the history of Israel, the evolution of the messianic idea in the actions of David Ben-Gurion, the debate between Martin Buber, Gershom Scholem, Isaiah Leibowitz, J. L. Talmon and other intellectual figures with Ben-Gurion, the implications of political theology and the presence of messianic ideas in Israeli politics. As the first book to examine the messianism in Israeli debate since the creation of the Israeli state, it will be particularly relevant for students and scholars of Political Science, modern intellectual history, Israel studies, Judaism and messianism.

The Encyclopedia of Jewish Myth, Magic and Mysticism Geoffrey W. Dennis, 2007 How are alchemy, astrology, magic and numerology related to Jewish mysticism? The fabulous, miraculous and mysterious are all explored in this comprehensive reference to Jewish esotericism, the first of its kind. From amulets and angels to the zodiac and zombies, the Encyclopedia of Jewish Myth, Magic and Mysticism features over one thousand alphabetical entries. Rabbi Geoffrey W. Dennis offers a much-needed culmination of Jewish occult teachings that includes significant stories, mythical figures, practices and ritual objects. Spanning the Bible, the Midrash, Kabbalah and other mystical branches of Judaism, this well-researched text is meant to trigger insight, spark inspiration and illuminate one of the oldest esoteric traditions still alive today.

Modernism and Zionism D. Ohana, 2012-10-10 Part of Palgrave's Modernism and series Modernism and Zionism explores the relationship between modernism and the Jewish national ideology, the Zionist movement, which was operative in all areas of Jewish art and culture.

Behind the Myths John Pickard, 2013-02-26 There has never been a more important time for a study of the social, economic and political origins of Judaism, Christianity and Islam, the three important world religions that share a common root. This book adopts a Marxist, that is a materialist, view of human development, so it takes as its starting point the idea that gods, angels, miracles and other supernatural phenomena do not exist in the real world and therefore cannot be taken as explanations for the origin and rise of these faiths. It looks instead at the material conditions at appropriate periods in antiquity and the social and economic forces that were at work to outline the real foundations of these three doctrines. In doing so, it challenges the historicity of key figures like Moses, Jesus and Mohammed. This is a unique book that draws on the research, knowledge and expertise of hundreds of historians, archaeologists and scholars to create a new synthesis that is both coherent and completely based on a materialist world outlook. It is a book written by an unbeliever for other unbelievers as a contribution to a discussion among

atheists and secularists as to the real origins of the so called Abramic faiths It will be a revelatory read even to those already firmly of an atheist or secularist persuasion underpinning their nonreligious views and it will provide a valuable resource for all those who might be coming to question the hold that organized religion has had on human society Nietzsche and Jewish Political Theology David Ohana,2018-10-04 Nietzsche and Jewish Political Theology is the first book to explore the impact of Friedrich Nietzsche s work on the formation of Jewish political theology during the first half of the twentieth century It maps the many ways in which early Jewish thinkers grappled with Nietzsche s powerful ideas about politics morality and religion in the process of forging a new and modern Jewish culture The book explores the stories of some of the most important Jewish thinkers who utilized Nietzsche s writings in crafting the intellectual foundations of Jewish modern political theology These figures political convictions ranged from orthodox conservatism to pacifist anarchism and their attitude towards Nietzsche s ideas varied from enthusiastic embrace to ambivalence and outright rejection By bringing these diverse figures together the book makes a convincing argument about Nietzsche s importance for key figures of early Zionism and modern Jewish political thought The present study offers a new interpretation of a particular theological position which is called heretical religiosity Only with modernity and paradoxically with rapid secularization did one find heretical religiosity at full strength Nietzsche enabled intellectual Jews to transform the foundation of their political existence It provides a new perspective on the adaptation of Nietzsche s philosophy in the age of Jewish national politics and at the same time is a case study in the intellectual history of the modern Jewry This new reading on Nietzsche s work is a valuable resource for students and researchers interested in philosophy Jewish history and political theology *20th Century Jewish Religious Thought* Arthur A. Cohen,Paul Mendes-Flohr,2010-01-01 JPS is proud to reissue Cohen and Mendes Flohr s classic work perhaps the most important comprehensive anthology available on 20th century Jewish thought This outstanding volume presents 140 concise yet authoritative essays by renowned Jewish figures Eugene Borowitz Emil Fackenheim Blu Greenberg Susannah Heschel Jacob Neusner Gershom Scholem Adin Steinsaltz and many others They define and reflect upon such central ideas as charity chosen people death family love myth suffering Torah tradition and more With entries from Aesthetics to Zionism this book provides striking insights into both the Jewish experience and the Judeo Christian tradition *The Origins of Israeli Mythology* David Ohana,2012-01-23 It is claimed that Zionism as a meta narrative has been formed through contradiction to two alternative models the Canaanite and crusader narratives These narratives are the most daring and heretical assaults on Israeli Jewish identity The Israelis according to the Canaanite narrative are from this place and belong only here according to the crusader narrative they are from another place and belong there The mythological construction of Zionism as a modern crusade describes Israel as a Western colonial enterprise planted in the heart of the East and alien to the area its logic and its peoples The nativist construction of Israel as neo Canaanism demands breaking away from the chain of historical continuity These are the greatest anxieties that Zionism and Israel needed to

encounter and answer forcefully The Origins of Israeli Mythology seeks to examine the intellectual archaeology of Israeli mythology as it reveals itself through the Canaanite and crusader narratives *Maitreya, the Future Buddha* Alan Sponberg, Helen Hardacre, 1988-04-29 This 1988 book is a multidisciplinary and cross cultural study of the legend that has evolved around the figure of Maitreya *Jewish Cryptotheologies of Late Modernity* Agata Bielik-Robson, 2014-08-13 This book aims to interpret Jewish Philosophy in terms of the Marrano phenomenon as a conscious clinamen of philosophical forms used in order to convey a secret message which cannot find an open articulation The Marrano phenomenon is employed here in the domain of modern philosophical thought where an analogous tendency can be seen the clash of an open idiom and a secret meaning which transforms both the medium and the message Focussing on key figures of late modern twentieth century Jewish thought Hermann Cohen Gershom Scholem Walter Benjamin Franz Rosenzweig Theodor Adorno Ernst Bloch Jacob Taubes Emmanuel Levinas and Jacques Derrida this book demonstrates how their respective manners of conceptualization swerve from the philosophical mainstream along the Marrano secret curve Analysing their unique contribution to the unfinished project of modernity including issues of the future of the Enlightenment modern nihilism and post secular negotiation with religious heritage this book will be essential reading for students and researchers with an interest in Jewish Studies and Philosophy
