**The Modern Defense Industry** Richard A. Bitzinger, 2009-10-15 Whether it's guns and ammunition or multidimensional anti-terrorism systems, the defense industry is dynamic, complex, and ubiquitous. It is also mysterious, powerful, and controversial, involving thousands of players worldwide, from suppliers and producers to government and military procurers, to shadowy figures that trade in the black market. This comprehensive two-volume reference will explore on a global scale the various issues, concepts, problems, and controversies surrounding the rise of the modern defense industry.  Defence Integration Martin Trybus, 2005-10-05 This monograph examines the legal dimension of European defence  
 integration from the Second World War to the Treaty Establishing a Constitution for Europe It covers the evolution of  
 European defence and security law in its legal historical and political context The notion of defence law describes the entire  
 field of rules created to regulate the defence of a nation or alliance The analysis leads from the earliest mutual defence  
 treaties to the failure of the European Defence Community and the eventual separation of defence from the mainstream of  
 European integration in the 1950s further to the re vitalisation of a European security policy in the Treaties of Maastricht  
 Amsterdam and Nice In the context of this evolutionary process the book examines the function of Community Law as an  
 instrument of European defence integration Community law affects the economic and social aspects of the defence within the  
 limits of the security exemptions of the EC Treaty It has an impact on the composition of the armed forces the procurement  
 of armaments or the regulation of the defence industries The book concludes with an analysis of the Common Security and  
 Defence Policy of the Constitutional Treaty agreed by the European Council in 2004 The discussion shows that European  
 defence integration is characterised by fragmentation in an area where coherence is particularly important First defence and  
 security are addressed in several organisations the EU the Western European Union NATO the Organisation for Security and  
 Cooperation in Europe and the Organisation for Joint Armaments Cooperation Second defence and security are addressed in  
 both the supranational Community Pillar and the intergovernmental Second Pillar of the Treaty on European Union The new  
 Constitutional Treaty aims to overcome the three Pillar structure of the Union Nevertheless it leaves the intergovernmental  
 character of the security and defence policy intact and introduces flexible frameworks for its mutual defence crisis  
 management and armaments components However the Union needs a coherent defence policy to ensure her security and to  
 speak with one voice on the international scene **Controlling Small Arms** Peter Batchelor, Kai Michael

Weapons SALW ten years after the UN first agreed to deal with the problem The end of the Cold War originated a series of phenomena that would subsequently come to dominate the political agenda Perhaps most symptomatic of the ensuing environment is the marked escalation in the scale and dynamics of armed violence driven by the proliferation of SALW Events in Rwanda Somalia and Bosnia seared into global consciousness the devastating effects of this phenomenon and of the necessity to engage actively in its limitation and prevention This edited volume explores and outlines the research and policy on the SALW issue at this critical juncture In addition to providing a detailed telling of the genesis and evolution of SALW research and advocacy the volume features a series of essays from leading scholars in the field on both advances in research and action on SALW It reflects on what has been achieved in terms of cumulative advances in data methodology and analysis and looks at the ways in which these developments have helped to inform policy making at national regional and international levels Alongside situating and integrating past and present advances in advocacy and international action Controlling Small Arms also outlines future directions for research and action This book will be of much interest to students of small arms peace and conflict studies peacebuilding security studies and IR

Lopez,2009-08-07 Foreign affairs practitioners and policy analysts claim that international arms embargoes usually fail due to the lack of political will among national governments to implement and enforce these restrictions This book includes chapters that examine some of the complex cases of arms embargoes such as Iraq Pakistan Angola and Liberia The Treaty on Conventional Armed Forces in Europe Mark Wilcox,2024-03-04 This work examines the CFE Treaty as a factor in Russia s foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of

European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow s foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia s national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of de coupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia s approach to arms control as an element of military security
