Six Great Ideas:

Six Great Ideas Mortimer J. Adler, 1997-12-01 This enlightening study is the result of group discussions at Dr Adler's annual seminar in Aspen Colorado and conversations between Dr Adler and Bill Moyers filmed for public television. Each summer Mortimer J. Adler conducts a seminar at the Aspen Institute in Colorado. At the 1981 seminar, leaders from the worlds of business, literature, education, and the arts joined him in an in-depth consideration of the six great ideas that are the subject of this book: Truth, Goodness, and Beauty (the ideas we judge by) and Liberty, Equality, and Justice (the ideas we act on). The group discussions and conversations between Dr Adler and journalist Bill Moyers were filmed for broadcast on public television, and thousands of people followed their exploration of these important ideas. Discarding the outworn and off-putting jargon of academia, Dr Adler dispels the myth that philosophy is the exclusive province of the specialist. He argues that philosophy is everybody's business and that a better understanding of these fundamental concepts is essential if we are to cope with the political, moral, and social issues that confront us daily.

Eternalism Politics Dale Armon Eaton, 2025-07-17 Eternalism is the philosophical appeal of the restored gospel. It is the rational basis for understanding Christ. Elder John A. Widtsoe said, "The Gospel may be said to be the philosophy of Eternalism. It is the philosophy that explains the whole of man's relationship to the universe. It invites the deepest study and the severest scrutiny. The previous *Eternalism* book discussed only the first three branches of philosophy: metaphysics, epistemology, and ethics. In this book, we pick up where the previous volume left off and deal specifically with primacy issues related to the higher philosophical branch of politics." Mortimer Adler explained, "In discussing the philosophical branch of politics, we focus on the ideas we act on in governing our social, political, and economic affairs. So when we say *Eternalism Politics*, we simply mean the principles of interaction between two or more people."

things in the universe bringing to bear both philosophical insight and informed scientific hypotheses concerning the biological and behavioral characteristics of mankind Rapid advances in science and technology and the abstract concepts of that influence on man and human value systems are lucidly outlined by Adler as he touches on the effect of industrialization and the clash of cultures and value systems brought about by increased communication between previously isolated groups of people Among the other problems this study addresses are the scientific achievements in biology and physics which have raised fundamental questions about humanity's essential nature especially the discoveries in the biological relatedness of all living things Thrown into high relief is humanity's struggle to determine its unique status in the natural world and its value in the world it has created Ultimately Adler's work develops an approach to the separation between scientific and philosophical questions which stands as a model of thought on philosophical considerations of new scientific discoveries and its consequences for the human person **The Great Ideas of Religion and Freedom** ,2021-08-30 This volume tests a hypothesis philosophy and science are identical forms of behavioristic organizational psychology a psychological habit of wondering about causes of organizational existence formation and behaviour Focusing attention on two universal and culturally influential great ideas freedom and religion this volume's array of international scholars demonstrate that leading ancient and medieval philosophers did philosophy in this way Also well known philosophers scientists like Mortimer J Adler and John N Deely practiced philosophy this way Doing so is precisely what made these philosophers uniquely capable of generating great ideas as motivational principles that dramatically alter cultures In a nutshell this work offers significant support for its historically and philosophically ground breaking thesis *The Eight Biggest Mistakes Personal Trainers Make* , **Old Ideas, New Practices: When Religion Is for Relationships** Bernard Lawrence Potvin,2021-03-15 This book is an upstream solution to the problems issues and questions young people struggle with downstream alienation

boredom and mistrust of religion It includes over a hundred teaching strategies tactics logistics and relationship builders that teachers in homes schools and churches can use This book is a treasure chest of old ideas cast into new and proven teaching practices each to be mined for the gem in it Potvin s interest in writing this book however is not to focus on what is broken and ineffective in Christian religious education and a lot of education is broken and ineffective but on what he has learned to be proven to be effective He has drawn from his PhD studies parenting with its perturbations and insights and over forty years of teaching in universities public and faith based schools Jesus gave us our program of studies with much to think about and practice what could work to bring us to our true self friendship with the Creator love for others and justice for all And given the unprecedented trend towards home education and online teaching designed for and led by parents new practices based on old ideas may be just what the doctor ordered A Faithful Guide to Philosophy Peter S.
