## **Smart Questions To Ask Your Lawyer:**

Your Lawyer on a Short Leash Avi Azrieli, 2023-10-16 Hiring a lawyer is easy but getting the lawyer you need for a fair price is another matter. Here is an easy to use guide to the lawyer client relationship from the initial planning of the search for a good lawyer to dodging the final shock of a hefty bill. Each chapter is an independent source of useful solutions for the lawyer challenged. Do you really need a lawyer and if so what kind? How to hunt down the best lawyer with a proven record of success. How to interview the candidate lawyer. How to negotiate a fair and motivating fee arrangement and How to help your lawyer obtain the results you desire while keeping legal expenses down. Published under the Transnational Publishers imprint.

**The Good Lawyer** Adrian Evans, 2014-09-15 The Good Lawyer explores the ethical and professional challenges that confront people who work in the law or are considering it and offers principled and pragmatic advice about how to overcome such challenges. This book takes a holistic approach that begins with your innate humanity. It urges you to examine your motives for seeking a career in law to foster a deep understanding of what it means to be good and to draw on your virtue and judgement when difficult choices arise rather than relying on compliance with rules or codes. The Good Lawyer analyses four important areas of legal ethics: truth and deception, professional secrets, conflicts of interest and professional competence and explains the choices that are available when determining a course of moral action. It links theory to practice and includes many examples, diagrams and source documents to illustrate ethical concepts, scenarios and decision making.

The Good Chinese Lawyer, 2023-01-19 The Good Chinese Lawyer explores the ethical and professional challenges that will confront a law student and will help them to prepare for life as a lawyer. The book offers principled and pragmatic advice about how to overcome such challenges. It urges readers to examine motives for seeking a career in law to foster a deep understanding of what it means to be good lawyer and how to draw on virtue and judgment when difficult choices arise rather than simply relying on rushed compliance with rules or codes. The Good Chinese Lawyer analyses four important areas of legal ethics: truth and deception, professional secrets, conflicts of interest and professional competence and explains the choices that are available when determining a course of moral action. It links theory to practice and includes many diagrams and scenarios to illustrate ethical concepts and good decision making.

**Good Roads** ,1911 Good Faith in Transnational Law Frédéric Gilles Sourgens,2022-09-12 Transnational law currently appears fragmented and captured by self interested corporate actors Good faith is at the heart of this fragmentation To defend transnational law thus requires an account of good faith Good Faith in Transnational Law explains and recasts fragmentation and capture as something valuable and casts good faith as an obligation of other regarding communicative conduct Fr d ric Gilles Sourgens argues that the fragmentation we experience is a virtue for communication across vastly different commercial economic social cultural and linguistic contexts to remain legally meaningful we must translate our different expectations into a shared context bound idiom He argues that law harnesses stress of such translations through stress fields that reintegrate the different experiences in a shared transnational discourse

**Louisiana Family Law Guide** Rue, Stephen,2004 **Law and Authority under the Guise of the Good** Veronica Rodriguez-Blanco,2014-12-01 The received view on the nature of legal authority contains the idea that a sound account of legitimate authority will explain how a legal authority has a right to command and the addressee a duty to obey The received view fails to explain however how legal authority truly operates upon human beings as rational creatures with specific psychological makeups This book takes a bottom up approach beginning at the microscopic level of agency and practical reason and leading to the justificatory framework of authority The book argues that an understanding of the nature of legal normativity involves an understanding of the nature and structure of practical reason in the context of the law and advances the idea that legal authority and normativity are intertwined This point can be summarised thus if we are able to understand both how the agent exercises his or her practical reason under legal directives and commands and how the agent engages his or her practical reason by following legal rules grounded on reasons for actions as good making characteristics then we can fully grasp the nature of legal authority and legal normativity Using the philosophies of action enshrined in the works of Elisabeth Anscombe Aristotle and Thomas Aquinas the study explains practical reason as diachronic future directed

intention in action and argues that this conception illuminates the structure of practical reason of the legal rules addressees. The account is comprehensive and enables us to distinguish authoritative and normative legal rules in just and good legal systems from apparent authoritative and normative legal rules of evil legal systems. At the heart of the book is the methodological view of a practical turn to elucidate the nature of legal normativity and authority.

**The Great British Entrepreneur's Handbook 2016** Simon Burton, 2015-11-25. THE GREAT BRITISH ENTREPRENEUR'S HANDBOOK 2016 shares the secrets of experienced entrepreneurs on everything from how to get effective media coverage to the secrets of attracting the best and brightest to your firm. *Economic Law as an Economic Good* Karl M. Meessen, Marc Bungenberg, Adelheid Puttler, 2009-07-29. Governments or at least the clever ones among them are aware of the factors guiding business activities. In the course of adopting and enforcing economic legislation, they seek to attract business activities in order to increase national income and fiscal revenues, generate employment opportunities, and very generally please voters. Hence economic law may be considered an economic good, as suggested by the title of this book. That function, which most rules of economic law have in the competition of systems, was strengthened by the worldwide liberalization of trade. Today it is of greater significance than ever before. Lawyers and economists, academics and practitioners from inside and outside Germany have taken a look at the facts and discussed approaches to conceptualizing them. The resulting thirty essays collected in this volume contribute to the interpretation of existing and the making of new economic law.

*The Question of Law* Young Kim, 2024-01-08. In pursuit of the question of law, Young Kim explores foundational political and moral concerns and develops a new normative theory of law. This theory of law may be stated as two principles in lexical priority as follows: First Principle: One should obey those laws of legal rational political authority that do not otherwise violate societal norms and customs. Second Principle: Government should only enforce rules of human behavior of legitimate legal rational political authority. This view understands the foundation of law to be political, including the power to enforce rules. Thus, as this book argues, the question of law is seen primarily as a question of obedience: whether and in what circumstances it is appropriate to obey the law. Furthermore, justice is seen as providing the moral framework within which rules of law are articulated. Law should serve the demands of justice; in particular, the theory of justice as right actions, which is led by moral concerns.
