The Forge The Forging Of A Rebel:

The Forging of a Rebel Arturo Barea, 1984 *The Forging of a Rebel* Arturo Barea, 2019-03-26 This astonishing autobiographical trilogy hailed by George Orwell and Gabriel García Márquez is the most definitive and personal account of Spain's history during the 20th century. *The Forging of a Rebel* is an unsurpassed account of Spanish history and society from early in the twentieth century through the cataclysmic events of the Spanish Civil War. Arturo Barea's masterpiece charts the author's coming of age in a bruised and starkly unequal Spain. These three volumes recount in lively detail Barea's daily experience of his country as it pitched toward disaster: we are taken from his youthful play and rebellion on the streets of Madrid to his apprenticeship in the business world and to the horrors he witnessed as part of the Spanish army in Morocco during the Rif War. The trilogy culminates in an indelible portrait of the Republican fight against Fascist forces in which the Madrid of Barea's childhood becomes a shell and bullet strewn warzone. Combining historical sweep and authority with poignant characterization and novelistic detail, *The Forging of a Rebel* is a towering literary and historical achievement.

The Forge Arturo Barea, 1984 *The War and Its Shadow* Helen Graham, 2012 In Spain today the civil war remains the past that will not pass away. The author explores the origins, nature and long term consequences of this exterminatory war in Spain, charting the resonant forms of political, social and cultural resistance to it and the memory legacy these have left behind in Europe and beyond.

A Violent Peace Ian Ona Johnson, Robert Clemm, 2025-06-10 World War I destroyed the world that had come before. It shattered three empires and fueled new nationalisms and ideologies that threatened to destroy those that remained. It left millions in its wake with military training and access to weaponry, creating networks of violence that would spread across much of the globe. This violence in the interwar period resulted in more deaths than during the Great War, most of them outside of Europe. While studies of the First and Second World Wars have become more international and interconnected, our understanding of the interwar period remains dominated by national narratives. *A Violent Peace* offers a new perspective stretching across four continents and drawing together a multitude of conflicts, large and small, from the Spanish Civil War to the Welwel Incident in Ethiopia, from the small RAF force involved in Somaliland to the hundreds of thousands in the Chinese Nationalist encirclement campaigns, from the conflicts surrounding newly formed states in the Polish-Soviet War to a settling of much older accounts in South America. The themes and patterns from this global era are drawn together in a cohesive analysis, including key studies on the utilization of technology, the growing importance of ideology and how the Great War shaped the nature of these conflicts. *A Violent Peace* provides a fresh angle on a tumultuous era and challenges readers to reconsider their preconceived ideas about the interwar period.

A Qualitative Approach to Translation Studies Elisa Calvo, Elena de la Cova, 2023-12-22 This collection invites readers to explore innovative or underexploited ways of working qualitatively with what in Translation Studies may be termed as elusive constructs. The volume adopts a functionalist approach to focus on one such concept, namely the notion of translation problem, using case

studies to illustrate how a significant elusive construct can be addressed empirically It explores different qualitative research methodologies which although well established in other fields are yet to be extensively used in TS but which may nevertheless prove to be of significance for future studies as they allow elusive concepts typically found in TS to be worked with more coherently Chapters are structured around two core ideas first the qualitative systematic analysis of source text content with emphasis on the detection of translation problems as a means of creating efficient frameworks for coherent decision making from a functional perspective and secondly the practical process of stereotyping and profiling specific problems within different contexts content types or services to help identify manage and resolve them in a number of settings from research to professional translator training and assessment environments This book will be of interest to scholars in translation studies particularly those with an interest in qualitative approaches

Triumph at Midnight in the Century Michael Eade, 2011 Arturo Barea 1897-1957 is often seen as merely a spontaneous writer with a passion against injustice This biography is based on numerous interviews with people who knew Barea It revisits Barea's writing qualities and deficiencies in the context of stimulating intersections of literature and politics and of Spain and England
