There are no good reasons for continued poverty across Central America beyond many decades of socialist policies. Socialists and progressives place the blame on past colonialism and capitalism. Yet countries like Chile rapidly became wealthy after opening their economies to international investment and trade. Each Central American country has a unique history and challenges today. U.S. policies should encourage economic freedom and end foreign aid projects that enable the *The Tyranny of Experts*.

Gregory Rehmke,
grehmke@gmail.com

The United States Federal Government should significantly reform its foreign policy toward one or more of the following Central American countries: Belize, Guatemala, Honduras, El Salvador, Nicaragua, and Costa Rica.

Over 5000 homeschool students have attended Economic Thinking workshops on national debate topics. Economic Thinking workshops help students understand economics, public policy, and world affairs. Economic Thinking is a Seattle-based nonprofit.
