England when the young nation was ill prepared to fight again Although his support of the Alien and Sedition statutes went against the grain of freedom he was still able to fend off another rebellion and keep the country together in its infant years He also promoted a strong military preparedness and sought to improve the caliber of both the army and the navy Thomas Jefferson became the first President from the opposition party the Democratic Republicans and in doing so set the precedent for a peaceful transfer of power from one party to another Under his term the country doubled in size due to the purchase of the Louisiana Territory from France He also took actions that were for the most part in line with a very narrow interpretation of the presidential powers under the Constitution
