The Horizon concise History of Germany Francis Russell,1973 **The Horizon Concise History of Germany** Francis Russell,1973 The Horizon Concise History of Italy Vincent Cronin,1972 *The Horizon Concise History of Scandinavia* Ewan Butler,1973 **The Horizon Concise History of France** Marshall B. Davidson,1971 Reproductions of art works and descriptive text provide an illustrated study of French life throughout the ages Amazon com *A Concise History of Nazi Germany* Joseph W. Bendersky,2020-09-21 This balanced history offers a concise readable introduction to Nazi Germany Combining compelling narrative storytelling with analysis Joseph W Bendersky offers an authoritative survey of the major political economic and social factors that powered the rise and fall of the Third Reich Now in its fifth edition the book incorporates significant research of recent years analysis of the politics of memory postwar German controversies about World War II and the Nazi era and more on non Jewish victims Delving into the complexity of social life within the Nazi state it also reemphasizes the crucial role played by racial ideology in determining the policies and practices of the Third Reich Bendersky paints a fascinating picture of how average citizens negotiated their way through both the threatening power behind certain Nazi policies and the strong enticements to acquiesce or collaborate His classic treatment provides an invaluable overview of a subject that retains its historical significance and contemporary importance **A Concise History of Germany** Mary Fulbrook,2004-02-19 This book provides a clear and informative guide to the twists and turns of German history from the early middle ages to the present day The multi faceted problematic history of the German lands has provided a wide range of debates and differences of interpretation Mary Fulbrook provides a crisp synthesis of a vast array of historical material and explores the interrelationships between social political and cultural factors in the light of scholarly controversies First published in 1990 A Concise History of Germany now appears in an updated second edition *A Short History of Germany* Ernest Flagg Henderson,1902 **A Short History of Germany** Ernest Henderson,2018-01-19 GERMANY stands in the centre of Europe and on her soil all the great international struggles have been fought the Thirty Years War the early campaigns of the Spanish Succession War the Seven Years War the gigantic wars against Napoleon It is the custom for modern educators to recommend the study of the history of France as a guiding thread through the intricacies of general European history but is this choice justifiable The two great omnipresent factors of the whole mediaeval period are the Papacy and the Empire the Empire was German from the ninth to the nineteenth century from the days of Charlemagne until the days of Francis II and the Empire interfered in the affairs of the Papacy and of Italy far more than did France When we come to the period of the Reformation surely Luther and his kind were more prominent than the French reformers and the Emperor Charles V had more to do with the affairs of Europe than any of the French kings In the Thirty Years War larger interests were at stake than in the Huguenot struggles and the German Peace of Westphalia necessitated a recasting of the whole map of Europe Louis

XIV it is true gave the tone to the high society of his age and French was almost universally spoken and written at the German courts but this influence was neither very deep nor very beneficial Nor can it be denied that the French Revolution produced great results for Europe Yet its effects as far as Germany was concerned have been overrated the liberation of the serfs would probably have been accomplished without it while constitutional government popular representation and trial by jury had still to wait for half a century
