**Mohamed Behnassi, Himangana
Gupta, Fred Kruidbos, Anita Parlow**

The Howling Arctic:

The Howling Arctic Ray Price, 1974 **The Howling Arctic ; the Remarkable People who Made Canada Sovereign in the Farthest North** Roy Price, 1970 **Strangers Among Us** David Charles Woodman, 1995 David Woodman re evaluates the importance of Inuit oral traditions in his search to reconstruct the events surrounding Sir John Franklin's tragic 1845 expedition. He shows that often misunderstood tales of white men travelling through Inuit lands may in fact refer to survivors of the Franklin expedition. **The No-nonsense Guide to Climate Change** Dinyar Godrej, 2001 The No Nonsense Guide to Climate Change charts up to the minute developments on climate change, explores the extent that the human race is responsible for the catastrophes and suggests what can be done to prevent them. **The Big Book of World Mythology** Reeja Radhakrishnan, 2015-11-10 The stories in The Big Book of World Mythology will take you on a magical journey across the rainbow chasing fairies, fighting serpents, riding dragons and reaching for the sun. These tales from the Americas, Asia, Europe, Egypt, Africa and Oceania will introduce you to Great Spirits, shape shifting trickster heroes, monsters, giants and wicked witches and a beautiful girl who may suddenly turn into a river or a tree, a seal or even just an echo. Go on an adventure with monkey, spider and serpent gods who make you laugh and learn life's small and great lessons. Beautifully illustrated, this book offers young readers one of the accessible guides to the world's imagination. **Winter's Playground** Timothy Whittenburg, 2023-12-18 Discover the Whispers of Winter: A Journey Through Snow-Covered Memories. Picture a world where the crunch of fresh snow underfoot syncs with the pulse of adventure and the brisk air fills your lungs as you embark on a journey through Winter's Playground. The Timeless Tales of Snowy Recreation. This enchanting compendium captures not just the essence of winter sports but the very soul found in each snowflake that touches down upon our expansive winter wonderland. Begin your odyssey by strapping on the ancient skis that were once Norse warriors' trusted allies. Feel the thrilling rush as you chart the evolution of alpine skiing and snowboarding from their subversive beginnings to the cultural phenomena that have captured imaginations worldwide. Glide across the storied ice and stand shoulder to shoulder with hockey legends tracing the sport from humble pond games to the rinks that birthed national pride and international camaraderie. Wander further into the serene silence of Nordic skiing and let the steady rhythm of your heartbeat become one with the landscape. Or delight in the innocent merriment of sledding, an activity whose age-old joy has echoed through the ages from survival to exhilarating competition. Crank up the engine and cut through the quiet with the roar of snowmobiles tying together communities with trails that dance through woodlands and over the open tundra. The call of the wild beckons as the narratives of dog sledding paint a vivid tableau of endurance and companionship, the Iditarod standing as a testament to the resilient bond between humans and their canine companions. For those drawn to elegance, let the artistry of figure skating and the strategic dance of curling inspire and entertain while the meticulous craft of snow sculpting offers a glance at transient masterpieces born from cold canvases. Finally, envision the global celebrations that color

the coldest months transforming the chill into a palette of cultural expression before looking ahead to the sustainable future of these cherished pastimes This tale is interwoven with reflections on preserving the magic of winter s embrace amid a changing world Make your mark in the snow embrace the season that transforms the world into a playground of possibility Winter s Playground is not a mere recount of historical facts it s an invitation to continue the legacy to add your story to the saga of snowy recreation So bundle up step into the frostbitten air and prepare to etch your path on winter s canvas

The Climate-Conflict-Displacement Nexus from a Human Security Perspective Mohamed Behnassi,Himangana Gupta,Fred Kruidbos,Anita Parlow,2022-04-01 Climate change is reshaping the planet its ecosystems and the evolution of human societies Related impacts and disasters are triggering significant shifts in the inextricably interconnected human and ecological systems with unprecedented potential implications These shifts not only threaten survival at species and community levels but are also emerging drivers of conflicts human insecurity and displacement both within and across national borders Taking these shifting dynamics into account particularly in the Anthropocene era this book provides an analysis of the climate conflict migration nexus from human security and resilience perspectives The core approach of the volume consists of unpacking the key dynamics of the nexus between climate change conflict and displacement and exploring the various local and global response mechanisms to address the nexus assess their effectiveness and identify their implications for the nexus itself It includes both conceptual research and empirical studies reporting lessons learned from many geographical environmental social and policy settings

The Turning Point Robert Douglas-Fairhurst,2022-03-01 A major new biography that takes an unusual and illuminating approach to the great writer immersing us in one year of his life from the award winning author of Becoming Dickens and The Story of Alice The year is 1851 It s a time of radical change in Britain when industrial miracles and artistic innovations rub shoulders with political unrest poverty and disease It is also a turbulent year in the private life of Charles Dickens as he copes with a double bereavement and early signs that his marriage is falling apart But this formative year will become perhaps the greatest turning point in Dickens s career as he embraces his calling as a chronicler of ordinary people s lives and develops a new form of writing that will reveal just how interconnected the world is becoming The Turning Point transports us into the foggy streets of Dickens s London closely following the twists and turns of a year that would come to define him and forever alter Britain s relationship with the world Fully illustrated and brimming with fascinating details about the larger than life man who wrote Bleak House this is the closest look yet at one of the greatest literary personalities ever to have lived

Race of Aces John R Bruning,2020-01-14 The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot In 1942 America s deadliest fighter pilot or ace of aces the legendary Eddie Rickenbacker offered a bottle of bourbon to the first U S fighter pilot to break his record of twenty six enemy planes shot down Seizing on the challenge to motivate his men General George Kenney promoted what they would come to call the race of aces as a way of boosting the spirits of his war weary command

What developed was a wild three year sprint for fame and glory and the chance to be called America's greatest fighter pilot. The story has never been told until now. Based on new research and full of revelations, John Bruning's brilliant original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced. The pilots: Richard Bong, Tommy McGuire, Neel Kearby, Charles MacDonald, and Gerald Johnson riveted the nation as they contended for Rickenbacker's crown. As their scores mounted, they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight. But as the race reached its climax, some of the pilots began to see how the spotlight warped their sense of duty. They emerged as leaders beloved by their men as they chose selfless devotion over national accolades. Teeming with action all across the vast Pacific theater, *Race of Aces* is a fascinating exploration of the boundary between honorable duty, personal glory, and the complex landscape of the human heart. Brings you into the cockpit of the lethal, fast-paced world of fighter pilots. Fascinating. Sara Vladic. Extraordinary, a must-read. US Navy Captain Dan Pedersen. A heart-pounding narrative of the courage, sacrifice, and tragedy of America's elite fighter pilots. James M. Scott. Vivid and gripping. Confirms Bruning's status as the premier war historian of the air. Saul David. *The Mad Trapper*. Barbara Smith, 2011-08-24. When Albert Johnson, the Mad Trapper of Rat River, was gunned down in February 1932, he went to his death without anyone knowing who he really was. Most people believed the name Albert Johnson was an alias. He eluded a well-organized, well-equipped posse for seven weeks, surviving solely on wits and determination in the bitter cold of a Canadian Arctic winter. Some 75 years later, he was being pursued again, this time by a team of filmmakers and forensic scientists bent on determining his identity once and for all. In this age of DNA testing and leading-edge forensic techniques, would the decades-old mystery finally be solved? Myth Merchant Films' Michael Jorgensen and Carrie Gour hoped so. Armed with a television production crew and a group of top forensic scientists, they headed to Aklavik, Northwest Territories. The team exhumed Johnson's body, examined the remains, and harvested samples for further testing and DNA comparison with potential kin. The results were broadcast in a Discovery Channel documentary, *Hunt for the Mad Trapper*. Author Barbara Smith was on hand to witness it all. In this book, she takes readers to the isolated northern community of Aklavik where the legend began, recounts the tale of the manhunt that mesmerized the world, describes the exhumation and subsequent scientific analyses, and shares the astonishing information unearthed in Myth Merchant's investigation.
