Central theme is the love affair between Camilla herself and her eligible suitor Edgar Mandlebert. They have many hardships however caused by misunderstandings and mistakes in the path of true love. Frances Burney 1752-1840 was an English satirical novelist, diarist and playwright. She is best known for her novels *Evelina*, *Cecilia*, *Camilla* and *The Wanderer*. Burney's novels explore the lives of English aristocrats and satirize their social pretensions and personal foibles with an eye to larger questions such as the politics of female identity. It doesn't question the role of market mechanisms themselves or the role of government in regulating the economy and providing public goods. It does however question one of the foundations on which market based economies are based: the system of property rights. It suggests that the form of private property that works well for the things we make is entirely inappropriate when applied to the natural world. It proposes an alternative: stewardship. The underlying principle of stewardship is that everyone is entitled to an equal share of the wealth of the natural world. In practical terms this means that stewards of land pay a fee that is equal to its market rent. This is used to provide revenue for the government in place of conventional taxes or to provide a Universal
