Smart Sentencing The Emergence Of Intermediate Sanctions:

Smart Sentencing James Michael Byrne, James M. Byrne, Arthur J. Lurigio, Joan Petersilia, 1992-08-20 In search of remedies to the growing problem of correctional crowding federal state and local policy makers have begun to experiment with a range of new intermediate sanctions These sanctions have taken a variety of forms intensive probation supervision home confinement boot camps day fines residential community corrections day reporting centers and community service programs In *Smart Sentencing* a distinguished panel of experts offers an in depth assessment of the design development and impact of each of these intermediate sanctions while also discussing the most controversial issues surrounding the use of alternative punishments e g the purpose of sanctions effectiveness issues gender bias overrepresentation of minorities The contributors also look at the future of intermediate sanctions and consider the many questions posed by criminal justice professionals and students regarding their continued development New concepts in sentencing are explored including home supervision electronic monitoring boot camps day fines community service programs residential community corrections and day reporting centers The Women s Advocate *Smart Sentencing* is a rich critical collection evaluating various intermediate sanctions such as community service drug treatment programs and electronic monitoring Twenty articles by leading U S researchers ably chronicle progress made and not made by the movement for intermediate sanctions Update *Smart Sentencing* is a rich and stimulating collection of reports from the field Contributors to this volume are astute observers of criminal justice operations and they rarely hesitate to describe problems when they see them *Smart Sentencing* is highly recommended and well worth reading While this volume strongly supports the intermediate sanction movement it goes well beyond rhetoric by providing professional assessments of what works and what doesn t work It also outlines a direction for future studies of intermediate sanctions Federal Probation A major contribution to the study of this resurgent field *Smart Sentencing* includes previously unpublished works from some renowned authorities on intermediate sanctions The book is aimed at academics and correctional administrators who desire a better understanding of intermediate sanctions In concert with that aim the contributors keep the use of complex inferential statistics to a minimum instead relying on descriptive methods of measuring diversion and cost savings Just as important almost all of the articles lay conceptual and theoretical foundations for a particular sanction something frequently neglected by in house correctional researchers and administrators The *Criminologist* This book provides a fairly detailed account of the experience of intermediate sanctions in America Overall this is a useful book and the general quality of the contributions is high The Magistrate

address the multiple goals of criminal sentencing Money and the Governance of Punishment Patricia Cabana, 2017-06-26 Money is the most frequently means used in the legal system to punish and regulate Monetary penalties outnumber all other sanctions delivered by criminal justice in many jurisdictions imprisonment included More people pay fines than go to prison and in some jurisdictions many of those in prison are there because of failure to pay their fines Therefore it is surprising how little has been written in the Anglophone academic world about the nature of money sanctions and their specific characteristics as legal sanctions In many ways legal innovations related to money sanctions have been poorly understood This book argues that they are a direct consequence of the changing meaning of money Considering the meaninglessness of modern money the book aims to examine the history of changing conceptions in how fines have been conceived and used Using a set of interpretative techniques sensitive to how money and freedom are perceived the genealogy of the penal fine is presented as a story of constant reformulation in response to shifting political pressures and changes in intellectual developments that influenced ideological commitments of legislators and practitioners This book is multi disciplinary and will appeal to those engaged with criminology sociology and philosophy of punishment socio legal studies and criminal law

The American Prison Francis T. Cullen, Cheryl Lero Jonson, Mary K. Stohr, 2013-04-11 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders *The American Prison Imagining a Different Future* by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay **The New Politics of Crime and Punishment** Roger Matthews, Jock Young, 2013-01-11 The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s It provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place

Encyclopedia of Community Corrections Shannon M. Barton-Bellessa, 2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more

damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader s guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put individual events into broader historical context a glossary provides students with concise definitions to key terms in the field a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides students to further resources in their research journeys and appendix offers statistics from the Bureau of Justice
