Being, Relation, and the Re-worlding of Intentionality Jim Ruddy, 2016-06-24 In this book Jim Ruddy has proceeded deep into the hub center of

Husserl's transcendental subjectivity and unearthed an utterly new phenomenological method. A vast originary a priori science emerges for the reader. Ruddy presents a unique and powerful eidetic science wherein the object consciousness of Husserl is suddenly shown to point beyond itself to the ultimate theme of the pure subject consciousness of God as He is in Himself. Thus the book opens up an endlessly new unrestricted realm of objective material for phenomenology to exfoliate and describe. This is an important work for both general phenomenologists and for scholars of Husserl, Aquinas and Edith Stein.

The Lost Age of Reason Jonardon Ganeri, 2014-03-27. The Lost Age of Reason deals with a fascinating and rich episode in the history of philosophy, one from which those who are interested in the nature of modernity and its global origins have a great deal to learn. Early modernity in India consists in the formation of a new philosophical self, one which makes it possible meaningfully to conceive of oneself as engaging the ancient and the alien in conversation. The ancient texts are now not thought of as authorities to which one must defer but regarded as the source of insight in the company of which one pursues the quest for truth. This new attitude implies a change in the conception of one's duties towards the past. After reconstructing the historical intellectual context in detail and developing a suitable methodological framework, Ganeri reviews work on the concept of knowledge, the nature of evidence, the self, the nature of the categories, mathematics, realism and a new language for philosophy. A study of early modern philosophy in India has much to teach us today about the nature of modernity as such, about the reform of educational institutions and its relationship to creative research and about cosmopolitan identities in circumstances of globalisation.

The Logic of Invariable Concomitance in the Tattvacintāmaṇi C. Goekoop, 2012-12-06. The history of Indian logic is roughly divided into three periods: old Nyaya, Buddhist logic and new Nyaya. Each period is characterized by the production of some outstanding Sanskrit text. The main texts of the first and second period have been translated into and explained in European languages. But the principal text of the third period, Gaṇiśeṣa's *Tattvacintāmaṇi*, is still not accessible through a Western language. The present book is intended to fill up this gap to some extent. The object of this study is to present both to Sanskritists and to logicians an essential part of Indian logic as laid down in the first two sections of the *Anumanakhaṇḍikā* of the *Tattvacintāmaṇi*. No attention will be paid here to the doctrines of Gaṇiśeṣa's predecessors and the theories developed by his commentators. Though this study is not concerned with comparative philosophy, Western logic will be employed for the purpose of interpretation. Under Western logic, I bring both traditional logic and modern logic, which in my opinion form one discipline of reasoning. This may account for my use of some Latin terms belonging to scholastic thought. Transliteration and translation have been made from the text of the *Anumatinirūpaka* and *Vyaptivāda* in the *Bibliotheca Indica* edition of Gaṇiśeṣa's *Tattvacintāmaṇi* with Mathuranatha's commentary. Part II, *Anumanakhaṇḍikā*, from *Anumiti* to *Bhiddha*. Calcutta, 1892. A photostatic copy of that text precedes the transliteration, translation and commentary.

Buddhist Epistemology in the Geluk School Jonathan Samuels, Khedrup Je, Gyaltsab Je, The First Jamyang Shepa, 2025-08-26. Tibet's philosophical tradition is on brilliant display in this anthology of

works exploring the means to finding certainty in an impermanent and interdependent world Here descendants of the great Tsongkhapa plumb the nature of knowing to harness it in the service of awakening This volume includes translations of three separate Tibetan works by iconic figures in the Geluk school of Buddhism The first work Banisher of Ignorance is by Khedrup Gelek Palsang 1385 1438 and the second On Preclusion and Relationship is by Gyaltsab Darma Rinchen 1364 1432 The authors popularly known as Khedrup Je and Gyaltsab Je were the foremost disciples of the Geluk school founder Tsongkhapa Losang Drakpa 1357 1419 The third text Mighty Pramana Sun is a commentary on the first chapter of Candrakirti s Clear Words Prasannapada by Jamyang Shepa 1648 1721 These works concern themselves primarily with the Buddhist theory of knowledge the means by which we are able to know things and how we can be certain of that knowledge Encapsulating this theory is the notion of pramana the Buddhist understanding of which was shaped most significantly by the Indian masters Dignaga fifth to sixth century and Dharmakirti seventh century Based on their explanation pramana is often translated as valid cognition a literal reference to the kind of cognition that they proposed could be relied upon to supply indisputable knowledge In the Buddhist Pramana tradition rigorous reasoning is held to play a crucial role in gaining such knowledge and there is no better exemplar of the sophistication this endeavor achieved in Tibet than Khedrup Je s work here He systematically catalogs and rebuts a host of views with unmatched acumen and flair All three works illustrate how those who follow the tradition have viewed the systematic approach as necessary not only for textual analysis for those seeking to unravel the complexities of the Indian Buddhist scriptures and treatises but also for practitioners aiming to progress along the spiritual path and achieve the highest Buddhist goals
