The Fools Path:

The Fools' Journey Yona Pinson, 2008 Tracing the evolution of the newly emerging iconographical patterns of fools and folly this book sheds light on the original and innovative invention that was an exclusive creation of northern Renaissance art and culture The novel theme of the fools journey as expressed mainly through prints in Germany and later in the Netherlands in the sixteenth century is revealed as an ironical paraphrase parodying the well established Christian topos the Pilgrimage of Life or the Pilgrimage of the Human Soul which offered the believer the opportunity to travel on the road toward redemption The new mythical image of the fools journey however confronts the contemporary reader viewer with the image of the fool on his voyage that leads him instead to his doomed fate thereby reflecting a pessimistic world view The newly emerging visual vocabulary is considered in relation to analogical contemporary didactic and satirical theatrical performances such as the rederijkers plays the sotties and also carnival processions Proposing a new reading of Sebastian Brant's *The Ship of Fools* *Das Narrenschiff* Basel 1494 a landmark in the new iconography of the allegorical journey this study recognizes as well the power of the visual image employed in the woodcuts illustrations accompanying the treatise as a tool of moral teaching used as a means of influencing the larger urban audience for whom word and image were sometimes interchangeable Concomitantly the divergence between verbal expression and visual language may be seen to define the inherent codes of the visual expressions It is precisely the gap between literary sources and visualization the very moment when visual vocabulary crystallizes and image departs from word creating its own autonomous expression and language that attracts our attention The range and diversity of visual material related to the fools journey topos addresses a wide spectrum of audiences This study also takes into consideration the strategies of communicating meanings and values to various publics Addressing the wider urban public that was not necessarily lettered notably women illustrated books and images were envisaged first of all as didactic tools In accordance the painters engravers attended their public with rather simple visual elaborations that could be easily deciphered Paintings drawings and prints intended for highly cultivated elite circles of urban society among them works by Albrecht Durer and Hieronymus Bosch demanded greater intellectual involvement on the part of the beholder challenging the sophisticated viewer to re create a meaningful ensemble out of the various scenes and motifs presented within complex compositions
