The Formation of Kazakh Identity Shirin Akiner,1995 *Eastern Europe, Russia and Central Asia* 2003 ,2000

Kazakhstan - Ethnicity, Language and Power Bhavna Dave,2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness

Where Nation-States Come From Philip G. Roeder,2012-01-09 To date the world can lay claim to little more than 190 sovereign independent entities recognized as nation states while by some estimates there may be up to eight hundred more nation state projects underway and seven to eight thousand potential projects Why do a few such endeavors come to fruition while most fail Standard explanations have pointed to national awakenings nationalist mobilizations economic efficiency military prowess or intervention by the great powers Where Nation States Come From provides a compelling alternative account one that incorporates an in depth examination of the Russian Empire the Soviet Union and their successor states Philip Roeder argues that almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state a jurisdiction defined by both human and territorial boundaries Independence represents an administrative upgrade of a segment state Before independence segmental institutions shape politics on the periphery of an existing sovereign state Leaders of segment states are thus better positioned than other proponents of nation state endeavors to forge locally hegemonic national identities Before independence segmental institutions also shape the politics between the periphery and center of existing states Leaders of segment states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence Roeder clarifies the mechanisms that link such institutions to outcomes and demonstrates that these relationships have prevailed around the world through most of the age of nationalism

Nazarbayev and the Making of Kazakhstan Jonathan Aitken,2009-10-07 Kazakhstan is colossal in size complicated in its history colourful in its culture and is a nation state that most outsiders know little of Much of the existing narrative revolves around the country s first president

Nursultan Nazarbayev But his life can only be understood in the context of the land in which he was born raised and became a leader For centuries the tribes of Kazakhstan had been plundered and conquered by foreign invaders The most ruthless of these were the 20th century leaders of the Soviet Union but after its collapse it was Nazarbayev who emerged as the new President of the nation state Jonathan Aitken s masterly book is a riveting account of how Kazakhstan has capitalised on its natural resources including oil to become one of the great economic success stories of the modern era Nazarbayev himself is widely admired as a political leader and strategist having overcome extraordinary crises including hyperinflation food shortages and the emigration of two million people However his record on human rights is less than perfect and the independence of the judiciary and the press are questionable Corruption is also widespread in Kazakh society making it an easy target for Ali G in his movie Borat The obstacles faced in becoming a successful economy are described and examined honestly in this truly fascinating story

Nomads and Soviet Rule Alun Thomas, 2018-06-14 The nomads of Central Asia were already well accustomed to life under the power of a distant capital when the Bolsheviks fomented revolution on the streets of Petrograd Yet after the fall of the Tsar the nature ambition and potency of that power would change dramatically ultimately resulting in the near eradication of Central Asian nomadism Based on extensive primary source work in Almaty Bishkek and Moscow Nomads and Soviet Rule charts the development of this volatile and brutal relationship and challenges the often repeated view that events followed a linear path of gradually escalating violence Rather than the sedentarisation campaign being an inevitability born of deep rooted Marxist hatred of the nomadic lifestyle Thomas demonstrates the Soviet state s treatment of nomads to be far more complex and pragmatic He shows how Soviet policy was informed by both an anti colonial spirit and an imperialist impulse by nationalism as well as communism and above all by a lethal self confidence in the Communist Party s ability to transform the lives of nomads and harness the agricultural potential of their landscape This is the first book to look closely at the period between the revolution and the collectivisation drive and offers fresh insight into a little known aspect of early Soviet history In doing so the book offers a path to refining conceptions of the broader history and dynamics of the Soviet project in this key period

Social and Cultural Change in Central Asia Sevketa Akyildiz, Richard Carlson, 2013-10-15 Focusing on Soviet culture and its social ramifications both during the Soviet period and in the post Soviet era this book addresses important themes associated with Sovietisation and socialisation in the Central Asian states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan The book contains contributions from scholars in a variety of disciplines and looks at topics that have been somewhat marginalised in contemporary studies of Central Asia including education anthropology music literature and poetry film history and state identity construction and social transformation It examines how the Soviet legacy affected the development of the republics in Central Asia and how it continues to affect the society culture and polity of the region Although each state in Central Asia has increasingly developed its own way the book shows that the states have in varying degrees retained the influence of the Soviet past or else are busily

establishing new political identities in reaction to their Soviet legacy and in doing so laying claim to re defining and reinventing pre Soviet and Soviet images and narratives Throwing new light and presenting alternate points of view on the question of the Soviet legacy in the Soviet Central Asian successor states the book is of interest to academics in the field of Russian and Central Asian Studies **Soviet Nation-Building in Central Asia** Grigol Ubiria,2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia The emergence of independent republics spawned a renewed Western scholarly interest in the region s nationality issues Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges existing arguments in current scholarship by bringing some new and alternative insights into the role of indigenous Central Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as studies of Nationalism and Soviet Politics **Central Asia and the Caucasus** Touraj Atabaki,Sanjyot Mehendale,2004-11-10 Since the collapse of the Soviet Union a number of linkages have been established between newly independent Central Asian states or populations within them and diaspora ethnic groups This book explores the roles that diaspora communities play in the recent and ongoing emergence of national identities in Central Asia and the Caucasus The loyalties of these communities are divided between their countries of residence and those states that serve as homeland of their particular ethno cultural nation and are further complicated by connections with contested transnational notions of common cultures and peoples Written by highly respected experts in the field the book addresses issues such as nationalism conflict population movement global civil society Muslim communities in China and relations between the new nation states and Russia This innovative book will interest students and researchers of transnationalism and Central Asian studies The Archaeology of Power and Politics in Eurasia Charles W. Hartley,G. Bike Yazicioğlu,Adam T. Smith,2012-11-19 For thousands of years the geography of Eurasia has facilitated travel conquest and colonization by various groups from the Huns in ancient times to the Union of Soviet Socialist Republics in the past century This book brings together archaeological investigations of Eurasian regimes and revolutions ranging from the Bronze Age to the modern day from Eastern Europe and the Caucasus in the west to the Mongolian steppe and the Korean Peninsula in the east The authors examine a wide ranging series of archaeological studies in order to better understand the role of politics in the history and prehistory of the region This book re evaluates the significance of power authority and ideology in the emergence and transformation of ancient and modern societies in this vast continent
