The Futures Of Christianity

David F. Ford

The Futures Of Christianity:

The Future of Christianity John Stenhouse, Brett Knowles, Antony Wood, 2004 This book written by a group of New Zealand scholars theologians historians and lawyers examines the question of New Zealand's Western culture and Christianity The contributors explore recent debates over secularisation exploring its merits and explanatory power while also showing its limitations

The Future of Christianity Professor David Martin, 2013-06-28 This book offers a mature assessment of themes preoccupying David Martin over some fifty years complementing his book *On Secularization* Deploying secularisation as an omnibus word bringing many dimensions into play Martin argues that the boundaries of the concept of secularisation must not be redefined simply to cover aberrant cases as when the focus was more on America as an exception rather than on Europe as an exception to the furiously religious character of the rest of the world Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world Doubts are cast on the idea that religion has ever been privatised and has lately reentered the public realm The rest of the book deals with the relation of the Christian repertoire to the nexus of religion and politics including democracy and violence and sharply criticises polemical assertions of a special relation of religion to violence and explores the contributions of cognitive science to the debate

The Future of Christianity David Martin, 2016-03-16 This book offers a mature assessment of themes preoccupying David Martin over some fifty years complementing his book *On Secularization* Deploying secularisation as an omnibus word bringing many dimensions into play Martin argues that the boundaries of the concept of secularisation must not be redefined simply to cover aberrant cases as when the focus was more on America as an exception rather than on Europe as an exception to the furiously religious character of the rest of the world Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world Doubts are cast on the idea that religion has ever been privatised and has lately reentered the public realm The rest of the book deals with the relation of the Christian repertoire to the nexus of religion and politics including democracy and violence and sharply criticises polemical assertions of a special relation of religion to violence and explores the contributions of cognitive science to the debate

Christianity and the Future Mary Jean Richardson, 2011-04-07 THE END TIMES SERIES A set of two books designed to warn and prepare Christians for the dangerous days ahead BOOK 1 *Christianity and the Future* The churches of Christianity have become divided As dark forces push the world toward the End Times only Christian unity can bring people to Christ Christianity and the Future uses a new reference frame for mapping conflicting Christian postures to discover ways to unite Christians

churches and denominations by resolving divisive topics Christians can agree upon a common understanding of God's will as presented in the Holy Bible and revealed through the Holy Spirit

Nicaea and the Future of Christianity George E. Demacopoulos, Aristotle Papanikolaou, 2025-07-01 Commemorating the 1700th anniversary of the Council of Nicaea this volume offers an original examination of the enduring impact of the single most famous gathering of Christians since the apostolic age Despite the longstanding historical and theological study of the Council of Nicaea several central questions remain Was Nicaea a theological event or a political one What does it mean if it was both Was Constantine's intervention without precedent or was he simply continuing a long standing role of a Roman emperor who was responsible for leading a religious cult albeit now for a different faith tradition And what about the actual theological debates of Nicaea and our ability to understand them Scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades For many scholars and Christian activists today the significance of Nicaea centers around the idea of conciliarity and what this has meant both historically and theologically for the Christian community Why and how did Nicaea become foundational for thinking that the church operates in a conciliar manner How did that work historically in different parts of the Christian world And how should it work today Nicaea and the Future of Christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the Orthodox Catholic and Protestant traditions The great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which Nicaea continues to speak to the future of Christianity

The Future of the Christian Church Michael Ramsey, Léon Joseph Suenens, 1970

The Future of Christian Theology David F. Ford, 2011-02-28 The Future of Christian Theology represents a personal manifesto from one of the world's leading theologians exploring the ways Christian theology in the twenty first century has been and can now continue to be both creative and wise Represents an outstanding and engaging account of the task of theology today Offers an insightful description of what makes for discerning and creative theology Written from the perspective of decades of experience and in close dialogue with theologians of other faiths Features a strong interfaith and public theology dimension and a contemporary portrait of the field from the inside A hopeful and illuminating search for wisdom and understanding in the increasingly complex religious and secular world of the twenty first century

The Future of Christian Mission in India Augustine Kanjamala SVD, 2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4:12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical

administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today s new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is challenged to become a living Bible that undoubtedly everyone will read The Christian Future Eugen Rosenstock-Huessy,2020-11-19 The starting point of this attempt to recast the Christian truth is the experience of the two world wars and of the veritable end of the old world with all its implications for the new world The old order has destroyed itself and therefore none of the pre war institutions neither State nor Church can rebuild the Western world Christianity is bankrupt but it is not refuted and the task is to reinterpret its central dogmas of death and life of cross and resurrection in terms intelligible to the modern mind *The Future Shape of Christian Proclamation* Cleophus J. LaRue,Luiz C. Nascimento,2020-08-03 Christianity is turning brown and moving south The Christianity the West has known is in recession and has all but dwindled out of recognition in the opening years of the twenty first century Well over half of the world s Christians now live in the Global South Africa Asia and Latin America They are according to Aberdeen missiologist Andrew Walls the new Representative Christians What they think about Christianity will matter more and more and what North America thinks about Christianity will matter less and less This massive shift in geography and theological point of departure will have a major impact on Christian preaching now and into the future The Future Shape of Christian Proclamation seeks to begin the conversation about how preaching in the Global South will inform the whole of Christian preaching in the coming years

Uncover the mysteries within is enigmatic creation, Embark on a Mystery with **The Futures Of Christianity** . This downloadable ebook, shrouded in suspense, is available in a PDF format (Download in PDF: *). Dive into a world of uncertainty and anticipation.
