Empire and Popular Culture John Griffiths, 2022-06-27 From 1830 if not before the Empire began to permeate the domestic culture of Empire nations in many ways From consumables to the excitement of colonial wars celebrations relating to events in the history of Empire and the construction of Empire Day in the early Edwardian period most citizens were encouraged to think of themselves not only as citizens of a nation but of an Empire Much of the popular culture of the period presented Empire as a force for civilisation but it was often far from the truth and rather Empire was a repressive mechanism designed ultimately to benefit white settlers and the metropolitan economy This four volume collection on Empire and Popular Culture contains a wide array of primary sources complimented by editorial narratives which help the reader to understand the significance of the documents contained therein It is informed by the recent advocacy of a four nation approach to Empire containing documents which view Empire from the perspective of England Scotland Ireland and Wales and will also contain material produced for Empire audiences as well as indigenous perspectives The sources reveal both the celebratory and the notorious sides of Empire In this the third volume of Empire and Popular Culture documents are presented that shed light on three principal themes The shaping of personal collective and national identities of British citizens by the Empire the commemoration of individuals and collective groups who were noted for their roles in Empire building and finally the way in which the Empire entered popular culture by means of trade with the Empire and the goods that were imported

The Musical Salvationist Gordon Cox, 2011 The Musical Salvationist frames the Salvation Army's contribution to British musical life through the life story of composer arranger and musical editor Richard Slater 1854-1939 popularly known as the Father of Salvation Army Music drawing on his detailed hand written diaries The Musical Salvationist frames the musical history of the Salvation Army through the life story of Richard Slater popularly known as the Father of Salvation Army Music This book

focuses upon the significant contribution of the Salvation Army to British musical life from the late Victorian era until the outbreak of the Second World War in 1939. It demonstrates links between the Army's music making and working class popular culture, education and religion. Richard Slater (1854-1939) worked in the Army's Musical Department from 1883 until his retirement in 1913. His detailed hand-written diaries reveal new information about his background before he became a Salvationist at the age of 28. He then worked as the principal Salvationist composer, arranger and musical editor of the period and had contact with William Booth, the Army's Founder, who rejoiced in robbing the devil of his choicest tunes. George Bernard Shaw, who wrote a penetrating critique of a band festival in 1905, and Eric Ball, who was to become one of the Army's finest composers. The book illuminates rarely explored aspects of a vibrant British musical tradition and its adaptation to international contexts. GORDON COX is a former Senior Lecturer in Music Education, University of Reading. Foreword by Dr Ray Steadman Allen.

Wesleyan-Holiness Churches in Australia Glen O'Brien, 2018-04-17. Most Wesleyan Holiness churches started in the US, developing out of the Methodist roots of the nineteenth century Holiness Movement. The American origins of the Holiness movement have been charted in some depth, but there is currently little detail on how it developed outside of the US. This book seeks to redress this imbalance by giving a history of North American Wesleyan Holiness churches in Australia from their establishment in the years following the Second World War, as well as of The Salvation Army, which has nineteenth century British origins. It traces the way some of these churches moved from marginalised sects to established denominations, while others remained small and isolated. Looking at The Church of God, Anderson, The Church of God, Cleveland, The Church of the Nazarene, The Salvation Army and The Wesleyan Methodist Church in Australia, the book argues two main points. Firstly, it shows that rather than being American imperialism at work, these religious expressions were a creative partnership between like-minded evangelical Christians from two modern nations sharing a general cultural similarity and set of religious convictions. Secondly, it demonstrates that it was those churches that showed the most willingness to be theologically flexible, even dialling down some of their Wesleyan distinctiveness, that had the most success. This is the first book to chart the fascinating development of Holiness churches in Australia. As such, it will be of keen interest to scholars of Wesleyans and Methodists, as well as religious history and the sociology of religion more generally.

Saved to Save and Saved to Serve Harold Hill, 2017-07-24. The Salvation Army has now been around for more than one hundred and fifty years, having celebrated its sesquicentennial in 2015 with an International Congress in London. Over the years, both the Army and the world in which it appeared have changed beyond recognition. This is a good time for the movement to stop and look back, not just to celebrate but to see where it is today. The Army has not evolved in isolation from the world. Bringing its own history with it, it nevertheless belongs to the twenty-first century world as much as William Booth's little East End Mission belonged to nineteenth century London. This book attempts to explore the interaction between mission and world, as it has impacted the Army's beliefs and practices, as well as the place it now occupies in the wider world.
