Hunt,1986-12-01 **History of Ware, Massachusetts** Arthur Chase,1911 *The Crossroads of American History and Literature* Philip F. Gura,2004-06-11 *The Crossroads of American History and Literature* collects two decades worth of the best known essays of Philip F Gura Beginning with a definitive overview of studies of colonial literature Gura ranges through such subjects in colonial American history as the intellectual life of the Connecticut River Valley Cotton Mather s understanding of political leadership and the religious upheavals of the Great Awakening In the nineteenth century he visits such varied topics as the history of print culture in rural communities the philological interests of the Transcendentalist Elizabeth Peabody the craft and business of the early American music trades and Thoreau s interest in exploration literature and in the Native American Displaying remarkable sophistication in a variety of fields that taken together constitute the heart of American Studies this collection illustrates the complexity of American cultural history

The History of Cape May County, New Jersey Lewis Townsend Stevens,2022-06-13 This book is an account of the earliest known narratives of the native peoples the Dutch in Delaware Bay the earliest European settlement of the county and the growth of the villages the county s role in the American Revolution and its patriots the establishment of the new state government the War of 1812 the soldiers of the Civil War and the progress of the county and its most prominent citizens up to the end of the 19th century The information was obtained from the collections of the New York Historical Society the New Jersey Historical Society and the Pennsylvania Historical Society Many facts were gathered from the articles of Francis B Lee Esq of Trenton The author was also aided by Colonel J Granville Leach of Philadelphia Cape May County Clerk Edward L Rice and Mr Aaron Leaming Extensive extracts were made from the diaries of Aaron Leaming the first of Aaron Leaming the second and of Jacob Spicer the second The work of Dr Beesley has been woven into this volume and proper credit has been given to him for every fact for which he is responsible The work is extensively illustrated with line drawings of prominent citizens and public buildings *Ware Family History* Wanda Ware DeGidio,2003 **The Perils of Print Culture: Book, Print and Publishing History in Theory and Practice** Jason McElligott,2014-09-09 This collection of essays illustrates various pressures and concerns both practical and theoretical related to the study of print culture Procedural difficulties range from doubts about the reliability of digitized resources to concerns with the limiting parameters of national book history

The History of Trade Union Organisation in the North Staffordshire Potteries W.H. Warburton,2025-11-21 *The History of Trade Union Organisation in the North Staffordshire Potteries* 1931 is an account by a potter and trade unionist of trade unionism in the pottery industry of North Staffordshire It describes the efforts of a century to create a stable organisation capable of negotiating on equal terms with the employers from the first spasmodic struggles of 1825 down to the establishment of the powerful National Society of Pottery Workers in 1919 As well as being a study of the

economic background and working conditions it is also a study of the growth and organisation of the pottery industry *The Ceramic Art: A Compendium of The History and Manufacture of Pottery and Porcelain* Jennie J. Young, 2020-09-28 The history of ceramic art carries us back to ages of which it has furnished us with the only records Beginning almost with the appearance of man upon the globe it brings us down through the intricate paths of his migrations to the time in which we live Historically therefore the study of the art is not only replete with interest but promises much benefit to the student The forms under which it appears are so varied the circuitous route it has followed leads to so many lands and among so many peoples and the customs it illustrates are so distinctive of widely separated nationalities that its history is co extensive with that of humanity In many cases it supplies us with information regarding nations whose works in pottery are their only monuments Were we therefore to attempt to find its origin we might go back as far as written history could guide us and then find proofs of its existence in a prehistoric age It is curious to observe that as we compare the earliest productions of different countries we discover a similarity between the crude ideas to which they owe their origin It is equally remarkable and the fact is worthy of notice as pointing to the great antiquity of the practice of working in clay that all nations of whose early religious ideas we have any knowledge ascribe its inception to the gods Daily habit demonstrated its utility and gratitude found a cover for ignorance in bestowing upon the heavenly powers the credit of inspiring man with a knowledge of the capabilities of the plastic clay Reason supplies an easy solution of the problem but one not likely to occur to the unreasoning man of the primitive world On the day says Jacquemart when man walking upon the clayey soil softened by inundations or rain first observed that the earth retained the prints of his footsteps the plastic art was discovered and when lighting a fire to warm his limbs or to cook his food he remarked that the surface of the hearth changed its nature and its color that the reddened clay became sonorous impervious and hardened in its new shape the art was revealed to him of making vessels fit to contain liquids The reason of the nineteenth century conflicts strangely with old world opinions of what was due to beneficent deity Of this we can easily find abundant illustration Let us take as examples China Japan Egypt and Greece We will find that each reverts to the misty boundary between legend and history or to the earlier age when the gods had not deserted the world the horizon of mortal vision or fancy where heaven seems to touch earth It is said that nearly two thousand seven hundred years before the Christian era the potter s art was discovered in China by Kouen ou This was during the reign of the enlightened Emperor Hoang ti Of him it is recorded that after many labors for the good of his subjects the amelioration of their condition and the extension of their knowledge he was translated to the upper sphere on the back of a huge and whiskered dragon
