Exploring the City Ulf Hannerz,1980 A bold attempt to provide a coherent and unified theoretical understanding of urbanism that draws upon history sociology and geography to bring intellectual unity to the history and development of urban anthropology

On Hobos and Homelessness Nels Anderson,1998 Nels Anderson was a pioneer in the study of the homeless In the early 1920s Anderson

combined his own experience on the bummers with his keen sociological insight to give voice to a largely ignored underclass. He remains an extraordinary and underrated figure in the history of American sociology. *On Hobos and Homelessness* includes Anderson's rich and vibrant ethnographic work of a world of homeless men. He conducted his study on Madison Street in Chicago and we come to intimately know this portion of the 1920s hobo underworld, the harshness of vagrant life and the adventures of young hobos who come to the big city. This selection also includes Anderson's later work on the juvenile and the tramp, the unattached migrant and the family. Like John Steinbeck's Depression era observations, Anderson's writings express the memory of those who do not seem entitled to have memory, whose lives were expressed in temporary labor.

Representing Homelessness Owen Clayton, 2021-11-04. *Representing Homelessness* analyses the representation and self-representation of homelessness. The volume features research from the Arts, Humanities, Sciences and the Social Sciences as well as writings by people with lived experience of homelessness.
