Ecology. International Conference,1990 *African Americans in the Human Sciences* Julia R. Miller Arline, Vanessa P. Jackson, Jacqueline M. Holland,2021-07-07 This book explores the role and experience of African American women scholars and educators in the field of human family and consumer sciences Its five sections cover careers in education the role of historically Black colleges and universities opportunities and challenges brought about by the internationalization of the field opportunities for new careers paths in the human sciences and the current and future role of technology The contributors come from a variety of backgrounds with experiences in research teaching outreach and service Taken together the essays

capture the vitality and diversity of knowledge that has over time assisted in transforming the field *Human Ecology as Human Behavior* John W. Bennett, 2017-07-05 Human interaction with the natural environment has a dual character By turning increasing quantities of natural substances into physical resources human beings might be said to have freed themselves from the constraints of low technology survival pressures However the process has generated a new dependence on nature in the form of complex socionatural systems as Bennett calls them in which human society and behavior are so interlocked with the management of the environment that small changes in the systems can lead to disaster Bennett s essays cover a wide range from the philosophy of environmentalism to the ecology of economic development from the human impact on semi arid lands to the ecology of Japanese forest management This expanded paperback edition includes a new chapter on the role of anthropology in economic development Bennett s essays exhibit an underlying pessimism if human behavior toward the physical environment is the distinctive cause of environmental abuse then reform of current management practices offers only temporary relief that is conservationism like democracy must be continually reaffirmed Clearly presented and free of jargon *Human Ecology as Human Behavior* will be of interest to anthropologists economists and environmentalists
