The Flying Devis Of Dunhuang:

The Flying Devis of Dunhuang Shuhong Chang,1983 **The Flying Devis of Dunhuang** ,1998 The Flying Devis of Dunhuang Shuhong Chang,1980-07 Chime ,1993 **Spirits in Transcultural Skies** Niels Gutschow,Katharina Weiler,2014-11-26 The volume investigates the visualization of both ritual and decorative aspects of auspiciousness and protection in the form of celestial characters in art and architecture In doing so it covers more than two and a half millennia and a broad geographical area documenting a practice found in nearly every corner of the world Its transcultural approach aims at gaining insights into cultural dynamics and consistent networks and defining new historical mindmaps it examines reciprocal effects and aspects of interwovenness in art and architecture with a view to reconceptualizing their established realms The collection opens a window on a phenomenon in the history of art and architecture that has never before been considered from this perspective The book focuses on a transcultural iconography of aerial spirits goddesses and gods in art history pursuing a methodologically innovative approach in order to redefine and develop the practice of identification and classification of motifs as a means to understanding meaning and attempting to challenge the categories defined by academic disciplines **Chinese Propaganda Posters: From Revolution to Modernization** Stefan Landsberger,2020-11-25 Brightly coloured prints portraying model behaviour or a better future have been a ubiquitous element of Chinese political culture from Imperial times until present As economic reform swept the People s Republic in the 1980s visual propaganda ceased to depict the tanned and muscular labourers in a proletarian utopia so typical of preceding decades Instead Western icons of progress and development were employed high speed bullet trains spacecraft high rise buildings gridlocked free ways and projections of general affluence Socialist Realism was phased out by design and mixed media techniques that were influenced by Western advertising This lavishly illustrated study traces the development of the style and content of the Chinese propaganda poster in the decade of reform from its traditional origins to its use as a tool for political and economic purposes **Bhaiṣajyaguru at Dunhuang** Zhihong Yan,1997 **Lost Knowledge** Benjamin B. Olshin,2019-02-19 Lost Knowledge The Concept of Vanished Technologies and Other Human Histories examines the idea of lost knowledge reaching back to a period between myth and history It investigates a peculiar idea found in a number of early texts that there were civilizations with knowledge of sophisticated technologies and that this knowledge was obscured or destroyed over time along with the civilization that had created it This book presents critical studies of a series of early Chinese South Asian and other texts that look at the idea of specific lost technologies such as mechanical flight and the transmission of images There is also an examination of why concepts of a vanished golden age were prevalent in so many cultures Offering an engaging and investigative look at the propagation of history and myth in technology and culture this book is sure to interest historians and readers from many backgrounds **Caves of the Thousand Buddhas** Roderick Whitfield,Anne Farrer,1990
History of Civilizations of Central Asia Clifford Edmund Bosworth,1992
