Rather than approaching emotion through the prism of Western theory, a team of leading scholars of Indian traditions showcases the literary texture, philosophical reflections and theoretical paradigms that classical Indian sources provide in their own right. The focus is on how the texts themselves approach those dimensions of the human condition we may intuitively think of as being about emotion without pre-judging what that might be. The result is a collection that reveals the range and diversity of phenomena that benefit from being gathered under the formal term emotion but which in fact open up what such theorisation, representation and expression might contribute to a cross-cultural understanding of this term. In doing so, these chapters contribute to a cosmopolitan, comparative and pluralistic conception of human experience. Adopting a broad phenomenological methodology, this handbook reframes debates on emotion within classical Indian thought and is an invaluable resource for researchers and students seeking to understand the field beyond the Western tradition.

Sins and Sinners Phyllis Granoff, Koichi Shinohara, 2012-08-17 *Sins and Sinners: Asian Perspectives* brings together essays by leading scholars of Asian religions to explore the diversity of beliefs about sin and its remedies.

Monasticism: A Very Short Introduction Stephen J. Davis, 2018-01-18 Monasticism is a social and religious phenomenon which originated in antiquity and which still remains relevant in the twenty-first century. But what exactly is it and how is it distinguished from other kinds of religious and non-religious practice? In this Very Short Introduction, Stephen J. Davis discusses the history of monasticism from our earliest evidence for it and the different types which have developed from antiquity to the present day. He considers where monasteries are located from East Asia to North America and everywhere in between and how their settings impact the everyday life and worldview of the monks and nuns who dwell there. Exploring how monastic communities are organized, he also looks at how aspects of life like food, sleep, sex, work and prayer are regimented. Finally, Davis discusses what the stories about saints communicate about monastic identity and ethics and considers what place there is for monasticism in the modern world.

Cities, and Thrones, and Powers Stephen R. L. Clark, 2022-06-29 What would a reappeared Plotinus answer today if asked how we might build a divinely ordered city? That is the question at the core of this unique book and

Stephen Clark takes us on a wide ranging deep dive to uncover possible answers To do so he first gives an account of the Plotinian philosophy of mind and metaphysics showing how Plotinus nicely balances the entanglement of soul body composites our immediate identities with the workings of the World Soul and the eternal soul that animates from within Drawing on later Christian and Islamic interpretations of the Neoplatonic tradition and parallel developments in Hindu thought he then describes the various social forms that seem to be the inevitable context of our lives here and now Furthermore we discover that the form a Plotinian religion adopts depends on taking seriously the thought of reincarnating souls and wandering hermits but now with the difference in our time that although some sages may be content to consider themselves simple wanderers in a world without borders or settled communities some will follow the same path as Buddhists Epicureans and Christians forming communities of friends loyal to their founder and to the fellowship of the Sangha We learn as well that in due course even those among the hermits who prefer to go almost literally alone to the Alone will become part of dispersed unhierarchical communities Finally Clark offers cautious thoughts about our likely futures dependent both on current technological advances and on the realistic suspicion shared by our predecessors that catastrophes and wholly unexpected turns are always to be expected

Jain Rāmāyaṇa Narratives Gregory M. Clines, 2022-04-28 Jain R m ya a Narratives Moral Vision and Literary Innovation traces how and why Jain authors at different points in history rewrote the story of R ma and situates these texts within larger frameworks of South Asian religious history and literature The book argues that the plot characters and the very history of Jain R ma composition itself served as a continual font of inspiration for authors to create and express novel visions of moral personhood In making this argument the book examines three versions of the R ma story composed by two authors separated in time and space by over 800 years and thousands of miles The first is Ravi e a who composed the Sanskrit Padmapur a The Deeds of Padma and the second is Brahma Jinad sa author of both a Sanskrit Padmapur a and a vernacular bh version of the story titled R m R s The Story of R m While the three compositions narrate the same basic story and work to shape ethical subjects they do so in different ways and with different visions of what a moral person actually is A close comparative reading focused on the differences between these three texts reveals the diverse visions of moral personhood held by Jains in premodernity and demonstrates the innovative narrative strategies authors utilized in order to actualize those visions The book is thus a valuable contribution to the fields of Jain studies and religion and literature in premodern South Asia
