Dorson, 1972 Describes the characteristics of folk cultures and discusses the procedures used by social scientists to study folklife **The functions of folk costume in Moravian Slovakia (Funkcie kroja na Moravskom Slovensku, engl.- Transl. from Slovak by Richard G. Crum.)** Petr G. Bogatyrev, Richard G. Crum, 1971 **Funkcie Kroja Na Moravskom Slovensku. The Functions of Folk Costume in Moravian Slovakia. (Translated ... by Richard G. Crum.).** Petr Grigor'evich BOGATUIREV, Richard G. CRUM, 1971 Textile Traditions of Mesoamerica and the Andes Margot Blum Schevill, Janet Catherine Berlo, Edward B. Dwyer, 2010-07-05 In this volume anthropologists art historians fiber artists and technologists come together to explore the meanings uses and fabrication of textiles in Mexico Guatemala Ecuador Peru and Bolivia from Precolumbian times to the present Originally published in 1991 by Garland Publishing the book grew out of a 1987 symposium held in conjunction with the exhibit Costume as Communication Ethnographic Costumes and Textiles from Middle America and the Central Andes of South America at the Haffenreffer Museum of Anthropology Brown University Fashion and Anti-fashion Ted Polhemus, 2011 Exploring adornment and dress from an anthropological perspective a classic text from 1978 revised with a new introduction and postscript for the 21 century **Signs and Society** Richard J. Parmentier, 2016-10-03 A major voice in contemporary semiotic theory offers a new perspective on potent intersections of semiotic and linguistic anthropology In Signs and Society noted anthropologist Richard J Parmentier demonstrates how an appreciation of signs helps us better understand human agency meaning and creativity Inspired by the foundational work of C S Peirce and Ferdinand de Saussure and drawing upon key insights from neighboring scholarly fields Parmentier develops an array of innovative conceptual tools for ethnographic historical and literary research Parmentier s concepts of transactional value metapragmatic interpretant and circle of semiosis for example illuminate the foundations and effects of such diverse cultural forms and practices as economic exchanges on the Pacific island of Palau Pindar s Victory Odes in ancient Greece and material representations of transcendence in ancient Egypt and medieval Christianity Other studies complicate the separation of emic and etic analytical models for such cultural domains as religion economic value and semiotic ideology Provocative and absorbing these fifteen pioneering essays blaze a trail into anthropology s future while remaining firmly rooted in its celebrated past Folk Housing in Middle Virginia Henry Glassie, 2025-03-14 In this fascinating analysis of eighteenth century vernacular houses of Middle Virginia Henry Glassie presents a revolutionary and carefully constructed methodology for looking at houses and interpreting from them the people who built and used them Glassie believes that all relevant historical evidence unwritten as well as written must be taken into account before historical truth can be found He is convinced that any study of man s past must make use of nonverbal and verbal evidence since

written history the story of man as recorded by the intellectual elite does not tell us much about the everyday life thoughts and fears of the ordinary people of the past Such people have always been in the majority however and a way has to be found to include them in any valid history In *Folk Housing in Middle Virginia* Glassie admirably sets forth such a way The people who lived in Middle Virginia in the eighteenth century are almost unknown to history because so little has been written about them After Glassie selected the area roughly Goochland and Louisa counties for study he selected a representative part of the countryside recorded all the older houses there developed a transformational grammar of traditional house designs and examined the area s architectural stability and change Comparing the houses with written accounts of the period he found that the houses became more formal and less related to their environment at the same time as the areas established political economic and religious institutions were disintegrating It is as though the builders of the houses were deliberately trying to impose order on the surrounding chaotic world Previous orthodox historical interpretations of the period have failed to note this Glassie has provided new insights into the intellectual and social currents of the period and has rescued a heretofore little known people from historiographical oblivion Combining a fresh perceptive approach with a broad interdisciplinary body of knowledge Glassie has made an invaluable breakthrough in showing the way to understand the people of history who have left their material things as their only legacy

Sacrifice in Religious Experience Albert I. Baumgartner, 2018-09-24

This book presents revised papers delivered at the 1998 and 1999 Taubes Minerva Center for Religious Anthropology conferences The papers from the 1998 conference discuss the role of sacrifice in religious experience from a comparative perspective Those from the second conference examine alternatives to sacrifice The first theme has been much elaborated in recent scholarship and the essays here participate in that on going inquiry The second theme has been less explored and the goal of this volume is to stimulate examination of the topic by offering a set of test cases In both sections of the volume a wide variety of religious traditions are considered The essays show that in spite of the inclination we may sometimes have to consider sacrifice part of the idolatrous past long overcome it remains a persistent and meaningful part of religious experience
