Religion and the Challenges of Science Mr Richard Feist, Professor William Sweet, 2013-05-28 Does science pose a challenge to religion and religious belief This question has been a matter of long standing debate and it continues to concern not only scholars in philosophy theology and the sciences but also those involved in public educational policy This volume provides background to the current science and religion debate yet focuses as well on themes where recent discussion of the relation between science and religion has been particularly concentrated The first theme deals with the history of the interrelation of science and religion The second and third themes deal with the implications of recent work in cosmology biology and so called intelligent design for religion and religious belief The fourth theme is concerned with conceptual issues underlying or implied in the current debates such as Are scientific naturalism and religion compatible Are science and religion bodies of knowledge or practices or both Do religion and science offer conflicting truth claims By illuminating contemporary discussion in the science religion debate and by outlining the options available in describing the relation between the two this volume will be of interest to scholars and to members of the educated public alike

George Wilson's Vision of Early Victorian Science and Technology David F. Channell, 2022-10-14 This volume is a comprehensive study of George Wilson a leading advocate for evangelical science and for the role of biology in technology it examines his work to develop a unitary vision of Victorian science and technology by drawing upon religion transcendental natural history and Baconian philosophy George Wilson was the first Regius Professor of Technology at the University of Edinburgh and the founding Director of the Industrial Museum of Scotland now the National Museum of Scotland Throughout his career he lectured and published on a wide range of topics including the prospect of life on other planets the history of science natural theology chemistry and poetry His works were very popular he was praised by Charles Dickens and his lectures drew large audiences particularly women Wilson sought to educate people about the significant scientific and technological developments taking place during the first half of the nineteenth century and create a unitary vision of science and technology This book is largely based on Wilson s own writings and it is the first book length study of him published in the last 160 years This book is essential for researchers and scholars alike interested in Victorian science and technology

Principles of Neurotheology Assoc Prof Andrew B Newberg, 2013-06-28 Neurotheology has garnered substantial attention in the academic and lay communities in recent years Several books have been written addressing the relationship between the brain and religious experience and numerous scholarly articles have been published

on the topic some in the popular press The scientific and religious communities have been very interested in obtaining more information regarding neurotheology how to approach this topic and how science and religion can be integrated in some manner that preserves both If neurotheology is to be considered a viable field going forward it requires a set of clear principles that can be generally agreed upon and supported by both the theological or religious perspective and the scientific one as well Principles of Neurotheology sets out the necessary principles of neurotheology which can be used as a foundation for future neurotheological discourse Laying the groundwork for a new synthesis of scientific and theological dialogue this book proposes that neurotheology a term fraught with potential problems is a highly useful and important voice in the greater study of religious and theological ideas and their intersection with science
