The Garden Of One:

A Garden of One's Own Elizabeth Lawrence, 1997 Gardening enthusiasts and those who love to read about gardening will be delighted by this new collection of Elizabeth Lawrence's work A gifted landscape architect and writer Lawrence 1904-85 chronicled her experiences with plants in a voice treasured **The Poem and the Garden in Early Modern England** Deborah Solomon, 2022-12-30 This book draws attention to the pervasive artistic rivalry between Elizabethan poetry and gardens in order to illustrate the benefits of a trans media approach to the literary culture of the period In its blending of textual studies with discussions of specific historical patches of earth The Poem and the Garden demonstrates how the fashions that drove poetic invention were as likely to be influenced by a popular print convention or a particular garden experience as they were by the formal genres of the classical poets By moving beyond a strictly verbal approach in its analysis of creative imitation this volume offers new ways of appreciating the kinds of comparative and competitive methods that shaped early modern poetics Noting shared patterns both conceptual and material in these two areas not only helps explain the persistence of botanical metaphors in sixteenth century books of poetry but also offers a new perspective on the types of contrastive illusions that distinguish the Elizabethan aesthetic With its interdisciplinary approach The Poem and the Garden is of interest to all students and scholars who study early modern poetics book history and garden studies

The Monster in the Garden Luke Morgan, 2015-10-16 Monsters grotesque creatures and giants

were frequently depicted in Italian Renaissance landscape design yet they have rarely been studied Their ubiquity indicates that gardens of the period conveyed darker more disturbing themes than has been acknowledged In *The Monster in the Garden* Luke Morgan argues that the monster is a key figure in Renaissance culture Monsters were ciphers for contemporary anxieties about normative social life and identity Drawing on sixteenth century medical legal and scientific texts as well as recent scholarship on monstrosity abnormality and difference in early modern Europe he considers the garden within a broader framework of inquiry Developing a new conceptual model of Renaissance landscape design Morgan argues that the presence of monsters was not incidental but an essential feature of the experience of gardens

June in the Garden

Eleanor Wilde, 2025-06-17 June views the world differently than others A keen horticulturist she can name every flower species in the alphabet J begins with the Jamaica Plum Yet when it comes to people and relationships she's still cultivating an understanding After her mother's unexpected death June must vacate her home But when the social worker urges her to move into a flat with no garden clearly that won't work With no other options she embarks on her first solo trip in search of a father she's only seen in a single old photograph When June unexpectedly shows up at her father's door he panics and turns her away unwilling to jeopardize his idyllic life and new family On her way out June spies an unruly backyard and with nowhere else to go quietly moves into her father's yellow garden shed Once again she can spend her days surrounded by her beloved flowers But when her father's 12 year old son her half brother discovers June she must choose between being seen for the first time or running away yet again A beautiful and heartwarming portrait of a young woman who looks at the world differently June in the Garden encourages others to do the same Because thinking unconventionally is not a flaw it's often the key to appreciating the wonder and bloom that surrounds us
